

Limitedbrands  
2005 Annual Report

Dear Partner,

As I look back on our results for 2005, I'm not pleased. In this business, in fact in any business, we create our opportunities, and we create our problems. No excuses. Yes, external factors existed – the continuation of the war, high energy costs, hurricanes – and they impacted customers to some degree, but at the end of the day, we just didn't execute as we should have.

I believe much of it's now behind us. Today, I see encouraging signs throughout the business. We are making progress, and applying the lessons learned from the past twelve months.

Victoria's Secret's 2005 sales increased 5% and operating income increased 11%. PINK was a major driver of this growth, with almost \$500 million in sales in its first full year – quite impressive. This past Fall, we tested an expanded PINK assortment in about 40 stores with very strong results. We are adding stores to the test this Spring and will focus on further growth in this important sub-brand.

Victoria's Secret continues to be one of the most recognized brands in the world, and it leads the bra category. Bra sales achieved significant growth over last year, driven by the most successful bra launch in the brand's history – IPEX. The revolutionary

technology behind this bra was awarded a U.S. patent, and it's this kind of innovation, coupled with understanding customers' needs, that continues to drive Victoria's Secret's growth.

Victoria's Secret Direct had an outstanding 2005 – sales were up 10%, and the internet channel continues to grow as a percentage of the business. The Holiday period in particular was excellent. The efforts of Sharen Turney and her team to drive sales during the last-minute Christmas rush reaped significant dividends in sales and profit, and reflected a better understanding of the Victoria's Secret gift customer.

Victoria's Secret has been successful in defining what is sexy and glamorous for women and bringing it to life with sub-brands like Body by Victoria, Very Sexy, Angels and Sexy Little Things. Powerful introductions like IPEX, Secret Embrace, PINK and Intimissimi allow for more growth, and even stronger sub-brand growth.

Even though the past year was one of change at Victoria's Secret Beauty, with a new leadership team and the consolidation of their store sales force with lingerie, we are clearly building the foundation to grow a billion dollar beauty business to a multi-billion dollar beauty powerhouse as fast as possible.

Bath & Body Works had a good year, not a great year. Still, there were some notable highlights. The launches of C.O. Bigelow, Breathe, American Girl and the Dr. Pat Wexler dermatological skincare line – probably the most popular skin care product conceived by a doctor – were all successful. Products like these are building a foundation for Bath & Body Works' transformation into a world-class body care product destination. This year we will apply more focus to all existing brands – refining the assortments, educating our customers about their benefits, promoting trial and exploring new channels of distribution, including BathandBodyWorks.com, which was successfully launched in time for the Holiday season.

As we've experienced with Victoria's Secret, the internet continues to grow as an additional shopping venue, and I believe it represents a key area of growth for Bath & Body Works. The Limited Brands Direct team was able to launch the BBW site in record time, and at a fraction of the original cost estimates. Terrific partnership with a great sense of urgency.

We also opened six new C.O. Bigelow stores this past Fall. These stores represent the best in personal care products – both from our own brands and third parties, and they give us an important additional growth format.

We upgraded our talent and capabilities in the area of home fragrance with the acquisition of Slatkin & Co. early last year. Harry Slatkin is best known in the industry for his line of superior quality candles and home fragrances, including Elton Rocks, Slatkin and C.Z. Guest. Harry first turned his attention to the successful Perfect Christmas line this Holiday, and is now improving the Henri Bendel and White Barn New York candle brands with his high-fragrance, superior-burning formulas.

In apparel, I began to see progress toward the end of 2005 as Jay Margolis' impact was being felt at Express. Our efforts to establish Express as a sexy fashion brand are working. Men and women are responding to the improved assortment, sales and traffic are increasing, margins are improved. I'm confident that Express is on the right track, building a foundation for the brand, so that results will continue to improve in 2006. Express has found their customer and now needs to get closer to them.

Our current focus is on making the apparel business – both Express and The Limited – profitable, and to position them for sustained profitable growth.

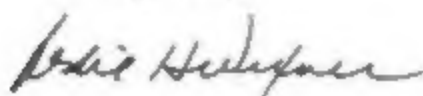

I am truly enthusiastic about 2006 and the momentum I see in our business. Our number one priority is merchant activities – staying close to the customer and anticipating their needs and wants. We are focused on supporting our merchants so that they can spend more time with our customers and provide us with real insights about them. We continue to focus on innovative product ideas, whether they come from inside or outside the organization. We have the brands, talent and capabilities to achieve significant growth.

I'd like to close by thanking all of our associates for their hard work, support and, importantly, their generosity. I'm extremely proud of the way our associates give back to their communities. There are numerous examples: \$12 million raised for United Way, gifts provided for tens of thousands of people through our Mother's Day and Holiday Giving Tree programs, thousands of volunteer hours helping young children learn to read and contributions of hundreds of thousands of dollars to help associates impacted by Hurricane Katrina.

Finally, I want to thank you, our shareholders, for your continued partnership.

Best regards,

A handwritten signature in black ink, appearing to read "Boris Hershman". The signature is fluid and cursive, with a long horizontal stroke at the end.

## PART I

### ITEM 1. BUSINESS.

#### FORWARD-LOOKING STATEMENTS.

The Company cautions that any forward-looking statements, as such term is defined in the Private Securities Litigation Reform Act of 1995, included in this report or made by the Company or management of the Company may involve risks and uncertainties and are subject to change based on various important factors, many of which are beyond our control. Accordingly, the Company's future performance and financial results may differ materially from those expressed or implied in any such forward-looking statements. Words such as "estimate," "project," "plan," "believe," "expect," "anticipate," "intend," "planned," "potential" and similar expressions may identify forward-looking statements.

A number of important factors could cause the results of the Company to differ materially from those indicated by such forward-looking statements, including those discussed under the heading, "Risk Factors," in Part I, Item 1A.

#### GENERAL.

Limited Brands, Inc. (the "Company") operates in the highly competitive specialty retail business in the United States. The Company sells women's intimate apparel, personal care and beauty products and women's and men's apparel. The Company sells merchandise at retail stores (primarily mall-based) and through direct response channels (catalogue and e-commerce).

#### DESCRIPTION OF OPERATIONS.

##### General

As of January 28, 2006, the Company conducted its business in three primary segments: Victoria's Secret, Bath & Body Works and Apparel. The Victoria's Secret segment derives its revenues from sales of women's intimate apparel (the apparel, beauty products and accessories marketed under the Victoria's Secret brand name). Victoria's Secret merchandise is sold through retail stores and direct-response catalogue and e-commerce. The Bath & Body Works segment derives its revenues from the sale of personal care, beauty and home fragrance products marketed under the Bath & Body Works, E.C.O. Republic and White Barn brand names. The Apparel segment derives its revenues from sales of women's and men's apparel through Express and Limited Stores.

The following chart reflects the retail businesses and the number of stores in operation for each business at January 28, 2006 and January 29, 2005.

	Number of Stores	
	January 28, 2006	January 29, 2005
Victoria's Secret	896	1,301
Bath & Body Works	1,555	1,549
Apparel Businesses		
Express Women's	127	468
Express Men's	13	773
Express Juva Gender	524	93
Total Express	744	864
Limited Stores	997	773
Total Apparel businesses	1,035	1,207
Other Brands	0	0
Total	2,501	2,774

The following table shows the changes in the number of retail stores operated by the Company for the past five fiscal years.

Fiscal Year	Beginning of Year	Opened	Closed	Disposed Businesses	End of Year
2001	6,500	775	177	(6,500)	4,398
2002	4,644	101	134	(4,510)	4,105
2003	4,136	74	140	—	3,970
2004	4,901	19	170	—	4,750
2005	3,779	50	(219)	—	3,610

- a) Represents Lane Bryant stores at August 16, 2001 the date of sale to a third party.  
b) Represents New York & Company (former) Lerner New York stores at November 27, 2002 the date of sale to a third-party.

The Company also owns Macy's Industries, Inc. ("Macy's"), an apparel importer which was a significant supplier of merchandise for Victoria's Secret, Express and Limited Stores. Macy's has \$564 million in net sales and third parties in 2005 and its operating results are included in the Other segment. For additional information, see Note 4 to the Consolidated Financial Statements included in Item 8, Financial Statements and Supplementary Data.

During Fiscal Year 2005, the Company purchased merchandise from over 1,000 suppliers located throughout the world. In addition, purchases through Macy's, the Company purchases merchandise directly in foreign markets prior to the domestic market. For 2005, Macy's supplier provided 1.1% or more of the Company's merchandise purchases.

Most of the merchandise and related materials for the Company's stores are shipped to the Company's distribution centers in the Columbus, Ohio area. In connection with the distribution of merchandise, the Company uses a variety of shipping terms that result in the transfer of title to the merchandise at either the point of origin or point of destination.

The Company's policy is to maintain sufficient quantities of inventory on hand in its retail stores and distribution centers so that it can offer customers an appropriate selection of current merchandise. The Company emphasizes rapid turnover and takes markdowns as required to keep merchandise fresh and current with fashion trends.

The Company's operations are seasonal in nature and consist of two principal selling seasons: Spring (the first and second quarters) and Fall (the third and fourth quarters). The fourth quarter, including the holiday season, accounted for approximately one-third of net sales in 2005, 2004 and 2003. Accordingly, cash requirements are highest in the third quarter as the Company's inventory builds in advance of the holiday season.

The Company and its products are subject to regulation by various Federal, state, local and international regulatory authorities. The Company is subject to a variety of customs regulations and international trade arrangements.

The Company's trademarks and patents, which constitute its primary intellectual property, have been registered or are the subject of pending applications in the United States Patent and Trademark Office and, where applicable, in many foreign jurisdictions and/or are protected by common law. The Company believes that its products and services are identified by its intellectual property and thus its intellectual property is of significant value. Accordingly, we intend to maintain our intellectual property and related registrations and vigorously protect our intellectual property assets against infringement.

The following is a brief description of each of the Company's Brand businesses:

#### ***Victoria's Secret***

Victoria's Secret is a leading specialty retailer of women's intimate and other apparel and beauty products. Victoria's Secret had net sales of \$4.436 billion in 2005 and operates 295 stores nationwide. Through its catalogue and website, [www.victoriasecret.com](http://www.victoriasecret.com), certain of its products may be purchased worldwide.

#### ***Barb & Body Works***

Barb & Body Works is a leading specialty retailer of personal care, beauty and home fragrance products. Barb & Body Works, which also operates ColorBlossom and the White Barn Candle Company, had net sales of \$2.285 billion in 2005 and operated 1,555 stores nationwide. Through its website, [www.barbandbodyworks.com](http://www.barbandbodyworks.com), certain of its products may be purchased worldwide.

#### ***Apparel Businesses***

Express is a specialty retailer positioned as a young, sexy and sophisticated designer brand for both work and casual wear among fashion-forward women and men. Express had net sales of \$3.794 billion in 2005 and operated 743 stores nationwide.

Limited Stores is a mall-based specialty store retailer. Limited Stores' strategy is to focus on sophisticated sportswear for modern American women. Limited Stores had net sales of \$545 million in 2005 and operated 792 stores nationwide.

#### ***Other***

Henri Bendel operates specialty stores in New York, New York and Columbia, Ohio which feature fashion and personal care products for sophisticated, high-income women. The business had net sales of \$40 million in 2005.

Additional information about the Company's business, including its revenues and profits over the last three years and selling square footage, is set forth under item 7 "Management's Discussion and Analysis of Financial Condition and Results of Operations." For the financial results of the Company's reportable operating segments, see Note 14 to the Consolidated Financial Statements in Item 8 "Financial Statements and Supplementary Data."

#### **COMPETITION.**

The sale of intimate apparel, personal care and beauty products, and women's and men's apparel through retail stores is a highly competitive business with numerous competitors, including individual and chain fashion

specialty stores, department stores and discount retailers. Brand image, marketing, fashion design, price, service, fashion assortment and quality are the principal competitive factors in retail store sales. The Company's direct response businesses compete with numerous national and regional catalogue and e-commerce merchandisers. Image presentation, fulfillment and the factor affecting retail store sales discussed above are the principal competitive factors in catalogue and e-commerce sales.

The Company's inability to estimate the number of competitors or its relative competitive position due to the large number of companies selling in mass apparel, personal care and beauty products and women's apparel is apparent through retail stores, catalogues and e-commerce.

## **ASSOCIATE RELATIONS.**

On January 28, 2006, the Company employed approximately 11,000 associates, 92,000 of whom were part time. In addition, temporary associates are hired during peak periods, such as the holiday season.

## **AVAILABLE INFORMATION.**

The Company's annual reports on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K, announcements, proxy reports and code of conduct are available free of charge on the Company's website [www.LordandTaylor.com](http://www.LordandTaylor.com). These reports are available as soon as reasonably practicable after such material is electronically filed with or furnished to the Securities and Exchange Commission.

## **ITEM 1A. RISK FACTORS.**

The following discussion of risk factors contains forward-looking statements, as discussed in Item 1. These risk factors may be important to understanding an investment in this Form 10-K, along with many other discussions of the Company's business. The following information should be read in conjunction with Item 7, Management's Discussion and Analysis of Financial Condition and Results of Operations, MD&A, and the consolidated financial statements and related notes included in this report.

In addition to the other information set forth in this report, the reader should carefully consider the following factors, which could materially affect the Company's business, financial condition or future results. The risks described below are not the only risks facing the Company. Additional risks and uncertainties not currently known or that are currently deemed immaterial may also adversely affect the business, financial condition and/or operating results of the Company in a material way.

### **The Company's revenue and profit results are sensitive to, and may be adversely affected by, general economic conditions, consumer confidence and spending patterns.**

The Company's growth, sales and profitability may be adversely affected by negative local, regional, national or international political or economic trends or developments that reduce the consumer ability or willingness to spend, including the effects of national and international security concerns such as war, terrorism or the threat thereof. Purchases of women's and men's apparel, women's intimate apparel, personal care and beauty products and accessories may decline during periods when economic or market conditions are unsettled or weak. In such circumstances, the Company may increase the number of promotional sales, which would further adversely affect its profitability.

### **The Company's net sales, operating income and inventory levels fluctuate on a seasonal basis.**

The Company experiences major seasonal fluctuations in its net sales and operating income, with a significant portion of its operating income typically realized during the fourth quarter holiday season. Any decrease in sales or margins during this period could have a disproportionate effect on the Company's financial condition and results of operations.

Seasonal fluctuations also affect the Company's inventory levels, since it usually orders merchandise in advance of peak selling periods and sometimes before new fashion trends are confirmed by customer purchases. The Company must carry a significant amount of inventory, especially before the holiday season selling period. If the Company is not successful in selling inventory during the holiday period, it may have to sell the inventory at significantly reduced prices or it may not be able to sell the inventory at all, which in each case may further adversely affect profitability.

**The Company may be unable to compete favorably in its highly competitive segment of the retail industry.**

The sale of men's and other apparel, personal care products and accessories is highly competitive. The Company competes for sales with a broad range of other retailers, including individual and chain fashion specialty stores, department stores and discount retailers. In addition to brick-and-mortar store-based retailers, the Company also competes with direct marketers that sell similar lines of merchandise and who target customers through catalogues and e-commerce. Direct marketers also include traditional store-based retailers and the Company who are competing in the catalogue and e-commerce distribution channels. The Company's direct response businesses compete with numerous national and regional catalogue and e-commerce merchandisers. Brand name marketing, fashion design, price, service, quality, image presentation and affiliation are all competitive factors in catalogue and e-commerce sales.

Some of the Company's competitors may have greater financial, marketing and other resources available to them. In many cases, the Company's primary competitors sell the products in department stores that are situated in the same shopping malls as the Company's stores. In addition to competing for sales, the Company competes for favorable site locations and lease terms in shopping malls.

Increased competition could result in price reductions, increased marketing expenditures and loss of market share, any of which could have a material adverse effect on the Company's financial condition and results of operations.

**The Company may not be able to keep up with fashion trends and may not be able to launch new product lines successfully.**

The Company's success depends in part on management's ability to effectively anticipate and respond to changing fashion tastes and consumer demands and to translate market trends into appropriate saleable product offerings in an advance of the actual time when the customer uses and purchases the product. Fashion trends change rapidly. If the Company is unable to successfully anticipate, identify or react to changing styles or trends and misjudges the market for a product or any new product lines, the Company's sales will be lower and it may be faced with a significant amount of unsold, marked down inventory. In response, the Company may be forced to increase its marketing promotions or price markdowns, which could have a material adverse effect on its business. The Company's brand name may also suffer if customers have merchandise misjudgments indicating that the Company is no longer able to identify and offer the latest fashions.

**The Company may lose key personnel.**

The Company believes that it has benefited substantially from the leadership and experience of its senior executives, including Leslie H. Werner, its Chairman of the Board of Directors and Chief Executive Officer. The loss of the services of any of these individuals could have a material adverse effect on the business and prospects of the Company. Competition for key personnel in the retail industry is intense and the Company's future success will also depend on its ability to recruit, train and retain other qualified personnel.

**The Company's manufacturers may be unable to manufacture and deliver products in a timely manner or meet quality standards.**

The Company purchases apparel through its wholly owned subsidiary, Mast, an apparel importer, through other contract manufacturers and importers and directly from third-party manufacturers. Personal care, fragrance and

beauty products are also purchased through contract manufacturers and importers and directly from third-party manufacturers. Similar to most other specialty retailers, the Company has narrow sales window periods for much of its inventory. Factors outside the Company's control, such as manufacturing or shipping delays, or quality problems, could disrupt merchandise deliveries and result in lost sales, cancellation charges or excessive markdowns, which could have a material adverse effect on the Company's financial condition and results of operations.

#### **The Company relies significantly on foreign sources of production.**

The Company purchases apparel merchandise directly in foreign markets and in the domestic market, some of which is manufactured overseas. The Company does not have any master licensing, term merchandise supply contracts and many of its imports are subject to a variety of customs regulations and other national regulations, including, for example, sanitary and phytosanitary duties, tariffs or quotas. The Company competes with other companies for production facilities and import quota capacity.

The Company also faces a variety of other risks generally associated with doing business in foreign markets and importing merchandise from abroad, such as:

- political instability
- imposition of new legislation or rules relating to imports that may limit the quantity of goods which may be imported into the United States from countries in a particular region,
- imposition of duties, taxes and other charges on imports,
- currency and exchange risks
- local business practice and political issues, including issues relating to compliance with domestic and international labor standards which may result in adverse publicity
- potential delays or disruptions in shipping and related pricing impacts, and
- disruption of imports by labor disputes.

New initiatives may be proposed that may have an impact on the trading status of certain countries and may include retaliatory duties or other trade sanctions which, if enacted, would limit or reduce the products purchased from suppliers in such countries.

In addition, significant health hazards or environmental or natural disasters may occur which could have a negative effect on the economies of many markets and business activity. In particular, the outbreak of avian influenza and concerns over its spread throughout Asia and elsewhere could have a negative effect on the economies, financial markets and business activity in Asia and elsewhere. The Company's purchases of merchandise from these manufacturing operations may be affected by this risk.

The future performance of the Company will depend upon these and the other factors listed above which are beyond its control. These factors may have a material adverse effect on the business of the Company.

#### **The Company depends on a high volume of mall traffic and the availability of suitable lease space.**

Many of the Company's stores are located in shopping malls. Sales at these stores are derived, in part, from the high volume of traffic in those malls. The Company's stores benefit from the ability of the malls' anchor tenants, generally large department stores, and other area attractions to generate consumer traffic in the vicinity of its stores and the continuing popularity of malls as shopping destinations. Sales volume and mall traffic may be adversely affected by economic downturns in a particular area, competition from non-mall retailers and other malls where the Company does not have stores and the closing of anchor department stores. In addition, a decline

the desirability of the shopping environment of a particular mall or a decline in the popularity of mall shopping among the Company's target consumers would adversely affect its business.

Part of the Company's future growth is significantly dependent on its ability to operate stores in desirable locations with capital investment and lease costs that allow the Company to earn a reasonable return. The Company cannot be sure as to when or whether such desirable locations will become available at reasonable costs.

#### **Increases in costs of mailing, paper and printing may affect the Company's business.**

Postal rate increases and paper and printing costs will affect the cost of the Company's order fulfillment and catalogue and promotional mailings. The Company relies on discounts from its basic postal rate schedule, such as discounts for bulk mailings and sorting, and any paper and postal rate increases could adversely impact the Company's earnings if it was unable to pass such increase directly onto consumers or by implementing more efficient printing, mailing, delivery and order fulfillment systems.

#### **The Company's stock price may be volatile.**

The Company's stock price may fluctuate substantially as a result of quarterly earnings per share and unseasoned trading results of the Company or other companies in the retail industry or markets served by the Company. In addition, the stock market has experienced price and volume fluctuations that have affected the market price of many retail and other stocks and that have often been unrelated or disproportionate to the operating performance of these companies.

#### **The Company may be unable to service its debt.**

The Company may be unable to service the debt drawn under its credit facilities and/or any other debt it incurs. Additionally, the agency trusts related to such debt require the Company to maintain certain financial ratios which limit the total amount the Company may borrow and also prohibit certain types of financial properties or assets.

#### **The Company is implementing certain changes to its IT systems that may disrupt operations.**

The Company is currently implementing modifications and upgrades to the information technology systems for merchandise distribution and support systems, including finance. Modifications involve replacing legacy systems with successor systems, making changes to legacy systems or acquiring new systems with new functionality. The Company is aware of inherent risks associated with replacing these systems, including downtime, capturing data and system disruptions. The launch of these successor systems will take place in a phased approach over an approximate three-year period that began in 2005. Information technology system disruptions, if not anticipated and appropriately mitigated, could have a material adverse effect on the Company's operations.

#### **The Company's results can be adversely affected by market disruptions.**

Market disruptions due to severe weather conditions, health hazards, terrorist activities or the prospect of these events could affect consumer spending and confidence level and adversely affect the Company's results or prospects in affected markets. The receipt of proceeds under any insurance the Company maintains for these purposes may be delayed or the proceeds may be insufficient to fully offset its losses.

#### **ITEM 1B. UNRESOLVED STAFF COMMENTS.**

Not applicable

## ITEM 2. PROPERTIES.

The Company's business is principally conducted from office, distribution and shipping facilities located in the Columbus, Ohio area. Additional facilities are located in New York, New York, Kennerly, Ohio, Rio Ranchu, New Mexico, Farmington, New Jersey and Hong Kong. The Company also operates smart sourcing-related office facilities in various foreign locations.

The distribution and shipping facilities owned by the Company consist of seven buildings located in the Columbus, Ohio area. These buildings, including attached office space, comprise approximately 6.5 million square feet.

The Company's retail stores are located in leased facilities, primarily in malls and shopping centers throughout the United States. A substantial portion of these lease commitments consists of store leases generally with an initial term of ten years. The leases expire at various dates between 2006 and 2021.

Typically, when space is leased for a retail store in a shopping center, all improvements, including interior walls, floors, ceilings, fixtures and decorations, are supplied by the Company. The cost of improvements varies widely depending on the design, size and location of the store. In certain cases, the landlord of the property may provide a discount for all, some or a portion of the cost of improvements serving as a lease incentive. Typical terms of new locations leases typically include a fixed minimum rent plus a percentage of sales in excess of a specified amount. Other operating expenses such as common area maintenance, utilities, insurance and taxes are typically paid by the Company. For additional information, see Notes to the Consolidated Financial Statements in Item 8 Financial Statements and Supplementary Data.

## ITEM 3. LEGAL PROCEEDINGS.

The Company is a defendant in a variety of lawsuits arising in the ordinary course of business. Plaintiffs may seek to recover damages, some legal fees, punitive damages or other types of relief, and some matters may be quite unresolved in several years. Although it is not possible to predict with certainty the outcome of any particular litigation, in the opinion of management, the Company's legal proceedings are not expected to have a material adverse effect on the Company's financial position or results of operations.

## ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS.

Not applicable.

## SUPPLEMENTAL ITEM: EXECUTIVE OFFICERS OF THE REGISTRANT

Set forth below is certain information regarding the executive officers of the Company:

Jedidiah Wexner, 60, has been Chairman of the Board of Directors of the Company for more than twenty years and its Chief Executive Officer since he founded the Company in 1963.

Leonard A. Schaevinger, 53, has been a member of the Board of Directors of the Company since 1996 and became Group President of Health and Personal Care in January 2005 and Vice Chairman and Chief Operating Officer of the Company in February 2005. Dr. Schaevinger was Executive Vice President and Chief Operating Officer from March 2000 until February 2005 and Executive Vice President, Organization, Leadership and Human Resources from October 1999 until March 2001.

Ms. Ann L. Carey, 55, has been a member of the Board of Directors of the Company since 2003 and has been Executive Vice President and Chief Financial Officer of the Company since August 1997. Ms. Carey resigned from the position of Chief Financial Officer effective not later than April 28, 2006, at which time she was assuming

the position of Executive Vice President, Corporate Development. The Company anticipates naming a successor prior to the time of Ms. Harley's transition into her new role. In the event that a successor is not named by that time, Martin R. Redgrave, Executive Vice President and Chief Administrative Officer, will assume the responsibilities of Chief Financial Officer in addition to his current duties until a successor is named.

Martyn R. Redgrave, 68, has been Executive Vice President and Chief Administrative Officer of the Company since March 2005.

Jay M. Margolis, 57, has been Group President of Apparel for the Company since March 2005.

Mark A. Covert, 48, has been Senior Vice President, Chief Stores Officer since December 2000. Mr. Covert was Vice President, Store Operations from February 2000 until December 2000.

Sandra L. West, 52, has been Executive Vice President, Human Resources of the Company since April 2003. Ms. West was Senior Vice President of Human Resources from April 2002 to April 2003. In March 2006, Ms. West announced her intention to retire from the Company effective May 2006.

All of the above officers serve at the discretion of the Board of Directors of the Company and are members of the Limited Brands Executive Committee.

## PART II

### ITEM 5. MARKET FOR REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES.

The Company's common stock ("TD") is traded on the New York Stock Exchange. On January 28, 2006, there were approximately 74,000 shareholders of record, however, including active associates who participate in the Company's stock purchase plan, associates who own shares through Company-sponsored retirement plans and others holding shares in broker accounts under street names, the Company estimates the shareholder base to be approximately 230,000.

The Company's quarterly market prices and cash dividends per share for 2005 and 2004 were as follows:

	Market Price		Cash Dividend Per Share
	High	Low	
Fiscal Year 2005			
Fourth quarter	\$23.85	\$19.50	\$0.15
Third quarter	25.50	18.84	0.15
Second quarter	24.76	12.34	0.15
First quarter	25.26	21.51	0.15
Fiscal Year 2004			
Fourth quarter	\$27.89	\$22.03	\$1.35(1)
Third quarter	24.80	18.65	—
Second quarter	21.04	18.14	—
First quarter	21.65	18.21	0.12

(1) Includes a special dividend of \$1.23 per share.

The following table outlines the Company's repurchases of common stock during the fourth quarter ended January 28, 2006:

Period	Total Number of Shares Purchased (1)	Average Price Paid Per Share (2)	Total Number of Shares Purchased as Part of Publicly Announced Programs (3)	Maximum Number of Shares for approximately Dollar values that May Yet Be Purchased (4)
November	364,368	\$22.02	357,900	\$ 92,120,390
December	3,812,751	22.76	3,785,560	(8) 351,733
January	2,839,084	22.76	2,827,600	41,992,020
Total	7,016,203	\$22.67	6,971,060	\$ 41,992,020

The total number of shares repurchased primarily includes shares repurchased as part of publicly announced programs with the remainder relating to shares repurchased in connection with tax payments due upon vesting of employee restricted stock awards and to the use of the Company's stock to pay the exercise price on employee stock options.

(2) The average price paid per share includes any broker commissions.

(3) On August 2005, the Company's Board of Directors authorized the repurchase of \$100 million of the Company's common stock. In November 2005, the Company's Board of Directors authorized the repurchase of \$200 million of the Company's common stock, which included \$67 million remaining under the August 2005 program. This program was completed in February 2006.

In February 2006, the Company's Board of Directors authorized the repurchase of an additional \$100 million of the Company's common stock which is not reflected in the table above. Through March 17, 2006, 1.5 million shares have been repurchased under this program for \$42.9 million, at an average price of \$23.63 per share which includes broker commissions.

## ITEM 6. SELECTED FINANCIAL DATA

(Millions except per share amounts, ratios, store and associate data)

### Summary of Operations

	2005(a)	2004	2003	2002(b)	2001(b)(c)
Net sales	\$9,699	\$9,308	\$8,934	\$8,415	\$8,473
Gross profit	\$3,480	\$3,394	\$3,255	\$3,094	\$3,016
Gross profit as a percentage of net sales	35.9%	36.5%	36.4%	36.6%	35.6%

### Stores and Associates at End of Year

Number of stores	3,506	3,799	4,091	4,136	4,634
Selling square feet (Thousands)	15,342	16,031	16,438	16,797	20,046
Number of associates	110,000	115,000	111,100	88,900	100,000

- a) During the fourth quarter of 2005, the Company changed its inventory valuation method. Previously, inventories were primarily valued at the lower of cost or market on a weighted-average cost basis using the retail method. Commencing in 2005, inventories are primarily valued at the lower of cost or market on a weighted-average cost basis using the cost method. See additional discussion in Note 7 to the Consolidated Financial Statements in Item 8 Financial Statements and Supplementary Data.

The cumulative effect of this change was \$1.7 million, net of tax, of \$1.5 million. This change was recognized as an increase in net income in the Consolidated Statement of Income as of the beginning of the first quarter of 2005. In addition to the \$1.7 million cumulative impact recognized as of the beginning of the first quarter, the effect of the change during 2005 was to decrease net income by \$4 million, or \$0.1 per diluted share.

- (b) As a result of its sale on November 27, 2002, New York & Company's (formerly L'egier New York) operating results have been reflected as discontinued operations. Accordingly, New York & Company's results are excluded from periods presented. New York & Company's earnings in 2002 and 2001 were net income of \$6 million or \$0.01 per diluted share, and \$13 million or \$0.03 per diluted share, respectively.
- (c) includes the results of Lane Bryant through its disposition date of August 6, 2001.
- (d) Operating income includes the effect of the following items:
  - In 2005, a \$40 million charge for recognition of income related to unredeemed gift cards. See additional discussion in Note 4 to the Consolidated Financial Statements in Item 8, Financial Statements and Supplementary Data.
  - In 2004, a \$6 million charge to correct the Company's accounting for straight-line lease and the depreciation and amortization of leasehold improvements and certain landlord allowances. See additional discussion in Note 1 to the Consolidated Financial Statements in Item 8, Financial Statements and Supplementary Data.
  - In 2002, a \$34 million charge for vested stock awards related to the Intimate Brands Inc.'s HR recombination.
  - In 2001, a \$170 million gain related to the sale of Lane Bryant.
- (e) In addition, the items previously discussed in (d), net income includes the effect of the following items:
  - In 2005, a favorable one-time tax benefit of \$32 million related to the termination of prior earnings under the provisions of the American Jobs Creation Act and pretax losses in other, or \$40 million related to a tax settlement. See additional discussion in Note 6 to the Consolidated Financial Statements in Item 8, Financial Statements and Supplementary Data.
  - In 2004, pretax non-operating gains of \$90 million related to New York & Company and \$8 million related to L'egier New York Company, Inc. Acquisition. See additional discussion in Notes 7 and 10 to the Consolidated Financial Statements in Item 8, Financial Statements and Supplementary Data.
  - In 2003, pretax non-operating gains of \$208 million related to Alliance Data Systems Corporation (ADS). See additional discussion in Note 1 to the Consolidated Financial Statements in Item 8, Financial Statements and Supplementary Data.
  - In 2002, pretax non-operating gains of \$6 million related to Charming Shoppes, Inc.
  - In 2001, pretax non-operating gains of \$62 million related to ADS and Cady's.
- (f) 2004 dividends per share include a special dividend of \$0.23 per share. See additional discussion in Note 1 to the Consolidated Financial Statements in Item 8, Financial Statements and Supplementary Data.
- (g) A store is typically included in the calculation of comparable store sales when it has been open 12 months or more and it has not had a change in selling square footage of 20% or more. Additionally, stores of a given brand are excluded if total selling square footage for the brand in the mall changes by 20% or more through the opening or closing of a second store.
- (h) In 2005, income per basic and diluted share includes accretion of \$0.34 and \$0.34, respectively, primarily related to share repurchases made during 2004, and \$0.04 per basic and diluted share includes accretion of \$0.14 and \$0.14, respectively, related to share repurchases during the year. See additional discussion in Note 10 to the Consolidated Financial Statements in Item 8, Financial Statements and Supplementary Data.

## ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

The following discussion and analysis of financial condition and results of operations is based upon the Company's Consolidated Financial Statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America. This should be read in conjunction with these statements and the notes thereto, which are included in Item 8, Financial Statements and Supplementary Data.

### Executive Overview

Limited Brands, Inc. (the "Company") operates in the highly competitive specialty retail business. The Company sells women's intimate apparel, personal care and beauty products and women's and men's apparel. The Company sells merchandise at a variety of stores (primarily mall-based) and through other response channels (catalogue and e-commerce).

#### Viverra

The Company's strategy centers on building a family of the world's best fashion retail brands whose compelling stories create loyal customers and deliver sustained growth for our shareholders. The Company is focused on developing and continuously evolving a family of destination retail brands offering a differentiated and fresh assortment of product brands at unique prices with a captivating shopping experience. The Company's brands represent a multi-dimensional portfolio competing across multiple channels, channels and segments. The Company's strategy is a evenly distributed capabilities including merchant leadership, brand portfolio management, retail brand building, open innovation, talent management and speed to scale.

At Victoria's Secret, the Company's testing an expanded PINK assortment in targeted locations, and is considering the introduction of new PINK stores as it explores additional opportunities to transform PINK into a fully articulated store brand. In addition, Victoria's Secret introduced Intimate as a premier Italian lingerie brand through the opening of Intimacy in Boston in approximately twenty (20) targeted store locations. The Company plans to introduce Intimacy in Boston in approximately 60 Victoria's Secret stores by the end of 2006. Additionally, the Company will continue to significantly invest in new distribution center facilities and infrastructure to support growth in its Direct business.

At Bath & Body Works, the Company opened seven new C/D/B grow stores in the Boston, Chicago and New York markets. In addition, Bath & Body Works executed several initiatives to support future growth including several investments in personal care and beauty concepts, the acquisition of Slatkin & Company, an import and wholesaler of sophisticated premium home fragrances, and the introduction of the Dr. Paterson Wickett MED skincare line. The Bath & Body Works launched bathandbodyworks.com in October 2005, providing an important new channel for growth.

Express is focused on winning back customers by reasserting itself as a young, sexy and sophisticated designer brand that offers the right product at the right price at the right time.

As a support to its strategy, the Company is focused on creating and re-energizing talent capabilities. The Company continues its pursuit of enhanced capabilities in the areas of finance, information, merchandise planning and allocation and customer innovation by consolidating and redesigning financial and operational systems. The Company is investing significantly in these projects and expects that these changes will improve operational efficiencies, allowing brands and corporate functions to spend more time on the strategic activities. Additionally, the Company created Beauty Avenues, a new division that will provide commercialization and sourcing capabilities for the personal care and beauty businesses.

The Company also continues to focus on shareholder value. In 2005, the Company returned \$6.77 million to shareholders through share repurchases and dividends and increased its quarterly dividend to \$0.15 per share, a 25% increase compared to last year.

## Summary of 2005 Results

The Company's operating results are generally impacted by changes in the overall U.S. economy and, therefore, management monitors the retail environment using, among other things, certain key industry performance indicators such as the University of Michigan Consumer Sentiment Index (which measures consumers' views on the future course of the U.S. economy), the National Retail Trade Index (which measures traffic levels in approximately 400 stores nationwide), and National Retail Sales (which reflects sales volumes of 5,000 businesses as measured by the U.S. Census Bureau). These indices provide insight into consumer spending patterns and shopping behavior in the current retail environment and assist management in assessing the Company's performance as well as the potential impact of industry trends on its future operating results. The Company's results were slightly below the industry averages.

The Company's results for the year ended January 28, 2006 were below the Company's expectations as operating income declined 4.1% primarily due to declines at Express. The Company's operating income for the quarter ended January 28, 2006 exceeded the Company's expectations with an increase in operating income primarily due to a significant improvement at Express as well as growth at Victoria's Secret.

Victoria's Secret's increase in sales and operating income for the year and fourth quarter was driven by continued sales growth in the PINK sub-brand as well as new bra launches, specifically HFX in the first quarter and Angel's Secret Embrace Bra in the fourth quarter.

Body & Body Works' increase in sales and operating income for the year and fourth quarter were driven by the continued sales of new product lines. A net \$16 million of additional sales volume and operating income resulted from the recognition of revenue related to unredeemed gift cards (see further discussion in net sales section below).

Express' results for the year were disappointing with declines in both sales and operating income driven by a fashion assortment that did not meet consumer preferences both in terms of fashion and price points across many merchandise categories. However, Express improved significantly in the fourth quarter with a 16% increase in comparable store sales and a significant increase in operating income due to an improved product offering that provided a more fashionable assortment with appropriate price points that appealed to the Express target customer. A net \$14 million of additional sales volume and operating income resulted from the recognition of revenue related to unredeemed gift cards (see further discussion in net sales section below).

## Information Relevant to Understanding 2005 Results

### Resolution of Income Tax Matters

The Company's results for the fourth quarter of 2005 included the impact of the following income tax matters:

- A favorable income tax benefit of \$12 million, \$0.19 per share, related to the repatriation of foreign earnings under the provisions of the American Jobs Creation Act; and
- In conjunction with a tax settlement, the Company recorded pretax interest income of \$40 million, \$0.70 per share.

See Note 8 to the Consolidated Financial Statements in Item 8 Financial Statements and Supplementary Data.

### Change in Inventory Valuation Method

The Company, in connection with the conversion to a new merchandising system in 2006, elected to change its inventory valuation methodology from the retail method to the weighted-average cost method during the fourth quarter retroactive to the beginning of the year (see Note 3 to the Consolidated Financial Statements in Item 8 Financial Statements and Supplementary Data). The Company's quarterly financial information in 2005 has been restated to the weighted-average cost method (see Note 3 to the Consolidated Financial Statements in Item 8 Financial Statements and Supplementary Data).

Under the retail method, the Company recorded a charge to cost of goods sold based upon actual and estimated permanent reductions in retail selling prices for the season. Under the cost method, the Company does not recognize any impact of reductions in retail selling price until the merchandise is actually sold to the customer or until the Company expects to sell the merchandise below original cost.

The Company believes that the cost method will improve the organizational focus on the actual margin realized on each merchandise sale. Additionally, the cost method is used by many other retailers, as well as the Company's personal care and beauty competitors.

This conversion had several impacts on results of operations for the year:

- The cumulative effect of the change of \$ 7 million was recorded as of the beginning of 2005.
- Excluding the cumulative effect, the change resulted in a \$4 million decrease to full year earnings, and a \$27 million decrease in fourth quarter earnings. The change has a minimal annual impact, but a larger quarterly impact due to timing differences related to the recognition of markdowns.
- Resulted in a \$22 million increase to inventories at the end of 2005.

The table below summarizes the impact of the change to the operating income of each segment by quarter. The results below are unaudited.

	Quarter ended April 30, 2005 (a)			Quarter ended July 30, 2005		
	Retail Method (As previously reported)	Effect of Change	Cost Method (Restated)	Retail Method (As previously reported)	Effect of Change	Cost Method (Restated)

Gift card breakage	-	6	4		10
Mail, third-party sales and other				27	27
2005 Net sales	\$1,581	\$1,819	\$746	\$166	\$1,542

At Victoria's Secret, the 7% increase in comparable store sales and in total sales was driven by growth in the Plus+ sub-brand and in the bra and body care categories, partially offset by declines in intimates, lingerie, fragrance and sleepwear. The growth in the bra category was driven by the Hour by Victoria Bra event in December and the launch of the Angel's Secret Intimates Bra. Victoria's Secret Direct achieved a 5% increase in sales driven by growth in intimate apparel, beauty and sleepwear.

At Bath & Body Works, the 1% increase in comparable store sales was primarily driven by incremental sales from the launch of the American Girl and Breathe Body Care product lines during 2005, as well as by products introduced last year, including 4-11 Hydration and La Courant des Merveilles. This sales increase was primarily driven by techniques in the fragrance/body care and home fragrance product lines. Sales increases were also supported by an increase in gift with purchase and purchase with purchase promotions.

At the Apparel businesses, the 4% increase in comparable store sales was driven by a 6% increase at Express. The increase at Express can be primarily attributed to increased sales in denim and knit tops as the focus shifted to a more balanced offering between casual and wear-to-work with appropriate price points. These increases were primarily offset by decreases in pants and sweaters. Limited Services experienced a 1% decrease in comparable store sales, primarily driven by significant declines in pants and work tops.

The Company issues gift cards which contain no expiration dates or inactive dates. The Company recognizes liability for gift cards when the gift card is redeemed by the customer, or (ii) the likelihood of the gift card being redeemed by the customer is remote and it is determined that there is an legal obligation to remit the unredeemed gift cards to the cardholder. During the fourth quarter of 2005, the Company recognized \$40 million in net sales and operating income (\$244 per share) related to gift card breakage at Bath & Body Works, \$6 million and Express, \$3 million. The amount of gift card breakage recognized was based upon analysis of historical redemption patterns and represents the portion of remaining balances of gift cards for which the Company believes the likelihood of redemption is remote. The fourth quarter of 2005 is the first period during which the Company has recognized gift card breakage. Therefore, the amount recognized represents the breakage amount related to gift cards sold since inception of the gift card programs at Bath & Body Works and Express. The Company will recognize gift card breakage at its other divisions once adequate historical data has been accumulated.

The net sales increase in Other was primarily driven by an increase in volume of Mail sales to third-party customers versus the fourth quarter of 2004.

## 2004 compared to 2003

Net Sales Fourth Quarter 2004 vs. 2003 (\$Millions)  
Increase (decrease)

	Victoria's Secret	Bath & Body Works	Apparel	Other	Total
2003 Net sales	\$1,465	\$,900	\$829	\$139	\$3,333
Comparable store sales	46	96	(98)	—	44
Sales associated with new, closed and non-comparable remodeled stores, net	26	10	(18)	—	18
Victoria's Secret Direct	35	—	—	—	35
2004 Net sales	\$1,470	\$1,006	\$713	\$139	\$3,328

At Victoria's Secret, the 5% increase in comparable store sales was primarily driven by the new PINK sub-brand, and by continued growth in the bra category and the beauty business, partially offset by declines in casual sleepwear. Sales increases in the bra category were driven by new introductions in the Very Sexy and Body by Victoria product lines. Growth in the beauty business was primarily driven by the continued success of the Very Sexy for Her<sup>®</sup> fragrance, the introduction of the Basic Instinct fragrance and the new expanded color and hair care product offering. The 1% increase in net sales at Victoria's Secret Direct was driven by growth in almost all product categories, including women separates, bras, knittops and beauty.

At Bath & Body Works, the 2% increase in comparable store sales was driven by growth in the home fragrance and bath product lines, as well as the successful launch of the Lush Delays product line. Sales increases were also supported by an increase in purchase with purchase promotions, as well as a one week extension of the semi-annual sale.

At the Apparel businesses, the 4% decrease in comparable store sales primarily resulted from seasonal declines and excess. The Fall 2004 season assortment did not meet the preferences of the company's customers both in terms of fashion selection and price points, resulting in a profit and decline in women's clothing, including intimates, knittops and denim, and decline in men's sweaters and denim. These declines were partially offset by increases in women's wear to work pants, driven by the continued success of the Lush for pants & knittops. Stores the 4% decrease in comparable store sales was primarily driven by a profit and decline in sweaters and knittops.

## Net Sales

### Full Year

## 2005 compared to 2004

Net Sales 2005 vs. 2004 (\$Millions)  
Increase (decrease)

	Victoria's Secret	Bath & Body Works	Apparel	Other	Total
2004 Net sales	\$1,232	\$2,69	\$2,498	\$557	\$6,986
Comparable store sales	25	73	(115)	—	37
Sales associated with new, closed and non-comparable remodeled stores, net	84	77	(84)	—	77
Victoria's Secret Direct	107	—	—	—	107
Gift card breakage	—	6	4	—	10
Most third-party sales and other	—	—	—	10	10
2005 Net sales	\$1,448	\$2,785	\$2,306	\$627	\$7,166

At Victoria's Secret, the increase in comparable store sales of 2% and the increase in total sales were driven by growth in the PINK sub-brand and the bra and body care categories, partially offset by declines in the sleepwear pants and prestige fragrance categories. The growth in the bra category was driven by sales of the PINK and the Very Sexy bra sub-brands. The 0% increase in net sales at Victoria's Secret Direct was driven by growth in almost all product categories, including woven tops, bras, knittops and beauty.

At Bath & Body Works, the 4% increase in comparable store sales was primarily driven by incremental sales from new product lines, including Tu-Douze, C.O. Bigelow, Le Couvent des Minimes, Breathe Body Care and American Club and recognition of gift card breakage in the fourth quarter, partially offset by declines in the fragrance body care and home fragrance product lines. This result was supported by a successful semi-annual sale during the second quarter and purchase-with-purchase promotions.

At the Apparel businesses, the 6% decrease in comparable store sales primarily resulted from significant declines at Express related to the product assortment issues during the first three quarters of the year. At major Express categories experienced declines as compared to last year except for knits and denim. These results reflect a continuation of sales declines at Express which began in the fall of 2004, express product assortment failed to meet customer preferences both in terms of fashion selection and price point. The 7% decline in comparable store sales at Limited Stores was primarily driven by declines in sweaters, skirts and jackets, partially offset by growth in denim, pants and accessories.

The net sales increase in other was primarily driven by an increase in volume of Masi sales to third-party customers versus 2004.

## 2004 compared to 2003

Net sales 2004 vs. 2003 \$Millions	Victoria's Secret	Bath & Body Works	Apparel	Other	Total
Increase (decrease)					
2003 Net sales	\$3,817	\$1,934	\$2,697	\$486	\$8,934
Comparable store sales	729	78	(157)		650
Sales associated with new, closed and non-comparable remodeler stores net	62	7	64		29
Victoria's Secret Direct	124	—	—		124
Misc third-party sales and other				3	3
2004 Net sales	\$4,232	\$2,169	\$2,440	\$517	\$9,408

At Victoria's Secret, the 9% increase in comparable store sales was primarily driven by incremental sales from the July 2004 national launch of the PINK sub-brand, by continued growth in the bra category and by the success of the Very Sexy for Her 9 and Basic Intense fragrances, partially offset by declines in swimwear. The 12% increase in net sales at Victoria's Secret Direct was driven by growth in swimwear, women's separates, bras and knit tops.

At Bath & Body Works, the 7% increase in comparable store sales was primarily driven by continued sales growth in the home fragrance and bath and Body's Beauty Kit and product lines, as well as the successful launch of the Tu-Douze product line. Sales increases were also supported by successful semi-annual sales during both the Spring and Fall seasons.

At the Apparel businesses, the 8% decrease in comparable store sales at Express was driven by significant declines in almost all of the women's categories, primarily related to the poor performance of the Fall season product assortment discussed previously. These declines were partially offset by increases in the women's wear-to-work category particularly in the Fall and prior. At Limited Stores, the 5% decrease in comparable store sales was primarily driven by declines in sweaters and knit tops and by the exit of the dress category, partially offset by increases in pants and woven tops.

## Gross Profit

### Fourth Quarter

#### 2005 compared to 2004

For the fourth quarter of 2005, the gross profit rate (expressed as a percentage of net sales) increased to 48.8% from 39.1% in 2004 driven by a decrease in the buying and occupancy rate primarily related to a \$61 million

lease related accounting charge in the fourth quarter of 2004 and the Company's cost of recognition of gift card breakage of \$30 million (as previously discussed).

At Victoria's Secret, the gross profit rate increased due to improvement in the buying and occupancy expense rate, partially offset by a reduction in the merchandise margin rate. The reduction in the merchandise margin rate was driven by the change to the weighted-average cost method of accounting for inventory, which resulted in lower margins at the beauty business. The declines at the beauty business were driven by lower margin gross sales in December and increased markdowns during the semi-annual sale, primarily in the color product line. Buying and occupancy expense was higher in 2004 as compared to 2003 due to the one-time lease accounting correction. Additionally, buying and occupancy expense was leveraged on a 4% increase in comparable store sales.

At Bath & Body Works, the gross profit rate increased due to improvement in the buying and occupancy expense rate, partially offset by a reduction in the merchandise margin rate. The reduction in the merchandise margin rate was due to higher markdowns and purchase-with-purchase promotions to stimulate traffic, partially offset by the Company's initial recognition of gift card breakage. Buying and occupancy expense was higher in 2004 as compared to 2003 due to the one-time lease accounting correction. Additionally, buying and occupancy expense was leveraged on a 1% increase in comparable store sales.

At the Apparel businesses, the gross profit rate increased over last year due to improvement in the buying and occupancy rate, partially offset by a reduction in the merchandise margin rate at Express. The reduction in the merchandise margin rate was driven by the change to the weighted-average cost method of accounting for inventory, which resulted in lower margins at the apparel businesses. The increase in merchandise margin rate for our women's apparel was partially offset by the Company's initial recognition of gift card breakage at Express. Buying and occupancy expense was higher in 2004 as compared to 2003 due to the one-time lease accounting correction. Additionally, buying and occupancy expense was leveraged on a 4% increase in comparable store sales.

#### 2004 compared to 2003

For the fourth quarter of 2004, the gross profit rate (expressed as a percentage of net sales) decreased by 1% from 41.7% to 40.7%. During the fourth quarter 2004, the Company, in consultation with its independent auditors, recorded a \$6 million for one-time change in correct its accounting in strategic segment and the depreciation and amortization, reclassified irregular items and certain goodwill allowances, which resulted in an increase in the buying and occupancy rate across the enterprise. See Note 1 to the Consolidated Financial Statements in Item 8 Financial Statements and Supplementary Data for further discussion.

At Victoria's Secret, the gross profit rate decreased due to the buying and occupancy expense rate increase, partially offset by an increase in the merchandise margin rate. The increase in the merchandise margin rate was driven by lower markdowns in the step-down and pants categories, partially offset by lower margins at the beauty business, which were driven by incremental sales from the expansion of the lower margin line card and shift in product mix. Following the impact of the one-time lease accounting correction, buying and occupancy expense was leveraged on a 5% increase in comparable store sales.

At Bath & Body Works, the gross profit rate decreased due to a decrease in the merchandise margin rate and an increase in the buying and occupancy expense rate. The decrease in the merchandise margin rate was primarily the result of an increase in markdowns to clear gift set inventories and an increase in purchase-with-purchase promotions. In addition, a change in product mix from higher margin Daily Beaut® body products to lower margin home fragrance products contributed to the rate decline. Following the impact of the one-time lease accounting correction, buying and occupancy expense was leveraged on a 1% increase in comparable store sales.

At the Apparel businesses, the gross profit rate decreased from last year due to a reduction in the merchandise margin rate and an increase in the buying and occupancy expense rate at both Express and a.m.c. Stores. The decrease in the merchandise margin rate was driven by higher markdowns for all significant product categories to

clear slow-moving inventories related to the poor performance of the Fall product assortment discussed previously. The increase in the buying and occupancy expense rate resulted from the one-time lease accounting correction and the inability to leverage expenses due to a 14% decline in comparable store sales.

## Gross Profit

### Full Year

#### 2005 compared to 2004

In 2005, the gross profit rate (expressed as a percentage of net sales) decreased to 45.2% from 46.4% in 2004, driven by a decrease in the merchandise margin rate at the Apparel brand. This decline was offset by a decrease in the buying and occupancy expense rate (primarily related to a \$6 million lease related accounting charge across the entire year in the fourth quarter of 2004), the Company's initial recognition of gift card breakage of \$30 million and expense leverage achieved at Victoria's Secret and Bath & Body Works on sales increases of 5% at both brands.

At Victoria's Secret, the gross profit rate increased due to improvement in the buying and occupancy expense rate, partially offset by a reduction in the merchandise margin rate. The slight reduction in the merchandise margin rate was driven by markdowns on panties and bras. Buying and occupancy expense was higher in 2004 compared to 2005 due to the one-time lease accounting correction. Additionally, buying and occupancy expense was leveraged on a 1% increase in comparable store sales.

At Bath & Body Works, the gross profit rate was flat compared to last year. The buying and occupancy expense rate improved, but was offset by a reduction in the merchandise margin rate. The reduction in the merchandise margin rate was due to higher markdowns on gift sets and purchase with purchase promotions in the second half of the year. Buying and occupancy expense was higher in 2004 due to the one-time lease accounting correction. Additionally, buying and occupancy expense was leveraged on a 4% increase in comparable store sales.

At the Apparel businesses, the gross profit rate decreased over last year due to a decrease in the merchandise margin rate, partially offset by an improvement in the buying and occupancy rate at both Express and Limited Stores. The decrease in the merchandise margin rate was driven by significantly higher markdowns throughout the first three quarters of the year on slow-moving inventories across many product categories. Buying and occupancy expense was higher in 2004 due to the one-time lease accounting correction, offset by the inability to leverage expenses due to a 6% decline in comparable store sales.

#### 2004 compared to 2003

In 2004, the gross profit rate declined to 46.1% from 46.4% as a result of the one-time lease accounting correction previously discussed and merchandise margin declines at Bath & Body Works and the Apparel businesses.

At Victoria's Secret, the gross profit rate was flat as an increase in the merchandise margin rate was offset by an increase in the buying and occupancy expense rate related to the one-time lease accounting correction discussed previously. The increase in the merchandise margin rate was driven by lower markdowns in the sleepwear and panty categories and an increase in margins in the bra category and improved performance in almost all categories at Victoria's Secret Direct, including women's woven separates, knits, tops, bras, shoes and accessories. These increases were partially offset by lower margins at the beauty business, which were driven by incremental sales from the expansion of the lower margin hair care and color product lines.

At Bath & Body Works, the gross profit rate decreased due to a decline in the merchandise margin rate, partially offset by a decrease in the buying and occupancy expense rate. The decrease in the merchandise margin rate was primarily driven by the fourth quarter results previously described. The decrease in the buying and occupancy expense rate resulted from leverage achieved on a comparable store sales increase of 12%, partially offset by the one-time lease accounting correction discussed previously.

At the Apparel businesses, the gross profit rate decreased over last year due to a decline in the merchandise margin rate and an increase in the buying and occupancy expense rate, both of which were driven by the results discussed previously in the fourth quarter section.

## General, Administrative and Store Operating Expenses Fourth Quarter

### 2005 compared to 2004

For the fourth quarter of 2005, the general administrative and store operating expense rate expressed as a percentage of net sales increased to 7.1% from 7.0% last year, driven by an increase in investments in new growth concepts, increased spending on technology and process initiatives to support future growth and an increase in marketing expense. The increase in marketing spending related to the Victoria Secret's fashion show, Pink Express, etc., on media and advertising and marketing programs at Bath & Body Works to support new product lines. These increases were partially offset by an \$8.5 million favorable litigation settlement with respect to merchant fees previously paid to Visa and MasterCard.

### 2004 compared to 2003

For the fourth quarter of 2004, the general administrative and store operating expense rate expressed as a percentage of net sales improved to 7.0% from 7.8% last year, primarily driven by an improvement in Bath & Body Works, the Apparel business and corporate functions. The improvement was due to the ability to leverage store selling expenses at Bath & Body Works Express and Intense Store, and by decrease in marketing and incentive compensation expenses across the Company. This improvement was partially offset by increased spending on technology and process initiatives.

## General, Administrative and Store Operating Expenses Full Year

### 2005 compared to 2004

In 2005, the general administrative and store operating expense rate increased to 7.4% from 7.4% in 2004. The increase was primarily driven by an increase in new growth concepts, increased spending on technology and process initiatives to support future growth and merchandise expenses associated with the Victoria Secret's fashion show and Pink. The increases were offset by decreases in incentive compensation and an \$8.5 million favorable litigation settlement with respect to merchant fees previously paid to Visa and MasterCard and

### 2004 compared to 2003

In 2004, the general administrative and store operating expense rate improved to 7.4% from 7.8% in 2003. This improvement was driven by the ability to leverage store selling expenses across all retail segments, partially offset by increased spending on technology and process initiatives.

## Interest Expense

The average daily borrowings and average borrowing rates for the fourth quarters and years ended January 28, 2006, January 29, 2005 and January 31, 2004 were as follows:

(Millions)	Fourth Quarter			Year		
	2005	2004	2003	2005	2004	2003
Average daily borrowings	\$1,705	\$1,474	\$640	\$1,666	\$863	\$675
Average borrowing rate	5.7%	5.6%	6.6%	5.5%	6.1%	6.6%

In 2005 the Company incurred interest expense of \$25 million and \$94 million for the fourth quarter and the year, respectively, compared to \$3 million and \$58 million for the same periods in 2004. The fourth quarter increase was driven by an increase in average borrowings and the average borrowing rate. The full year increase resulted from an increase in average borrowing, partially offset by a decrease in average effective borrowing rates resulting from the addition of the Company's \$750 million notes and \$400 million variable rate term loan during the third and fourth quarters of 2004, respectively (see Note 4 to the Consolidated Financial Statements in Item 8 Financial Statements and Supplementary Data).

In 2004, the Company incurred interest expense of \$21 million and \$88 million for the fourth quarter and the year, respectively, compared to \$17 million and \$67 million for the same periods in 2003. The increase for the fourth quarter is primarily due to additional debt issued in conjunction with the Company's \$2 billion tender offer and \$500 million special dividend in December 2004. The decrease for the year relates to \$13 million in expense in 2003 associated with the early redemption of the Company's \$240 million 7.5% debentures due in 2023, partially offset by an increase in average borrowings.

### Interest Income

In 2005, interest income was \$49 million and \$67 million for the fourth quarter and the full year, respectively, compared to \$7 million and \$9 million for the same periods in 2004. The increase in both the fourth quarter and year was driven by interest of \$40 million related to a tax settlement (see Note 8 to the Consolidated Financial Statements in Item 8 Financial Statements and Supplementary Data), partially offset by a decrease in the average invested cash balances.

In 2004, interest income decreased to \$7 million and \$40 million for the fourth quarter and the year, respectively, compared to \$9 million and \$0 million for the same periods in 2003. The decrease in the fourth quarter was primarily due to a decrease in average invested cash balances, partially offset by an increase in the average effective interest rates. The decrease for the year primarily relates to an interest return of \$30 million received in 2003 related to a tax settlement.

### Other Income (Loss)

In 2005, other income (loss) for the fourth quarter and the year was \$4 million and \$5 million, respectively, compared to \$4 million and \$29 million for the same periods in 2004. The full year decrease primarily relates to gains in 2004 of \$90 million related to the early cashing out of the New York & Company more convertible New York & Company's convertible preferred stock warrant held by the Company and additional proceeds from the New York & Company initial public offering (see Note 3 to the Consolidated Financial Statements in Item 8 Financial Statements and Supplementary Data).

In 2004, other income (loss) increased to \$4 million and \$99 million for the fourth quarter and the year, respectively, compared to \$54 million and \$0 million for the same periods in 2003. The fourth quarter increase primarily relates to losses from unconsolidated entities in 2003. The full year increase primarily relates to gains of \$90 million related to transactions with New York & Company discussed previously.

### Gains on Sale of Investees' Stock

During the second quarter of 2004, the Company sold its remaining ownership interest in Cravain's Trading Company, Inc. ("Cravain's") for \$65 million, resulting in a pretax gain of \$38 million. Prior to the sale of Cravain's shares, the Company accounted for its investment using the equity method.

During the first quarter of 2003, the Company sold approximately one-half of its ownership interest in Alliance Data Systems Corporation ("ADS") for \$13 million, resulting in a pretax gain of \$80 million. During the third quarter of 2003, the Company sold its remaining ownership interest in ADS for \$19 million, resulting in a pretax gain of \$128 million. Prior to these sales of ADS shares, the Company accounted for its investment using the equity method.

## Provision for Income Taxes

In 2005, the Company's effective tax rate for the fourth quarter and the year was 38.6% and 30.4%, respectively, compared to 35.1% and 36.8% for the same periods in 2004. The rate decrease for both 2005 periods was primarily due to a favorable income tax benefit of \$77 million related to the repatriation of foreign earnings under the provisions of the American Jobs Creation Act (see Note 8 to the Consolidated Financial Statements in Item 8, Financial Statements and Supplementary Data).

## FINANCIAL CONDITION

### Liquidity and Capital Resources

Cash generated from operating activities provides the primary resources to support current operations, growth initiatives, seasonal funding requirements and capital expenditures. In addition, the Company has funds available from an unsecured revolving credit facility, the Facility, as well as a commercial paper program which is backed by the Facility. In the fourth quarter of 2005, the Company issued \$2.1 billion of commercial paper under the Facility to the short-term funding of the Company's peak working capital needs. The Company repaid the commercial paper within the fourth quarter. Prior to this issuance, the Company had not issued commercial paper or drawn on the Facility to support the Company's operating activities during the year ended January 29, 2006.

In addition, the Company has available a shelf registration statement under which up to \$5 billion of debt securities (debentures and preferred stock and other securities may be issued. As of March 7, 2006, no securities have been issued under this registration statement).

The Company's operations are seasonal in nature and consist of two prime purchase seasons: Spring (the first and second quarters) and Fall (the third and fourth quarters). The fourth quarter, including the holiday period, accounts for approximately one-third of net sales in 2005, 2004 and 2003. Accordingly, cash requirements are highest in the third quarter as the Company's inventory builds in anticipation of the holiday period. The holiday period then generates a substantial portion of the Company's operating cash flow at the year end.

A summary of the Company's working capital position and capitalization as of January 28, 2006, January 29, 2005 and January 31, 2004 was as follows:

Working Capital Position and Capitalization \$Million	2005	2004	2003
Cash provided by operating activities	\$ 118	\$ 23	\$ 263
Working capital	\$ 239	\$ 233	\$ 135
Capitalization			
Long-term debt	\$ 669	\$ 636	\$ 638
Shareholders' equity	2,473	2,335	2,266
Total capitalization	\$3,140	\$3,381	\$2,904
Additional amounts available under long-term credit agreements	\$ 170	\$1,000	\$ 750

The Company considers the following to be relevant measures of liquidity and capital resources:

Liquidity and Capital Resources	2005	2004	2003
Debt-to-equity ratio (Long-term debt divided by shareholders' equity)	68%	70%	127%
Debt-to-capitalization ratio (Long-term debt divided by total capitalization)	30%	41%	113%
Cash flow to capital investment Net cash provided by operating activities divided by capital expenditures	225%	26%	363%

## Operating Activities

In 2005, the increase in net cash provided by operating activities was primarily driven by an increase in net income, excluding the non-cash 2004 gains related to New York & Company and Canyon's Trading Company, Inc.) and changes in working capital.

In 2004, the decrease in net cash provided by operating activities was primarily driven by an increase in inventory and a decrease in income taxes payable, partially offset by an increase in accounts payable and accrued expenses. At year end 2004, inventory levels and accounts payable were higher to support new product launches at Juth & Honey Works and Victoria's Secret. The decrease in income taxes payable resulted from an increase in tax payments compared to 2003. The increase in accrued expenses resulted from an increase in deferred revenue related to gift card sales.

## Investing Activities

In 2005, investing activities primarily included \$400 million in capital expenditures (see "Capital Expenditures" section), \$22 million related to strategic investments in several personal care companies and \$4 million related to non-operating real estate investments.

In 2004, investing activities primarily included \$431 million in capital expenditures (see "Capital Expenditures" section) and a \$22 million pay acquisition in a personal care products business. These cash outflows were initially offset by cash proceeds of \$541 million from the sale of a collection of a New York & Company limited-time retail store, the sale of New York & Company warrant held by the Company, \$65 million from the sale of the Company's remaining ownership interest in Canyon's and \$25 million related to non-operating real estate investments.

## Financing Activities

In 2005, the Company had the following financing activities: (i) cash payments of \$580 million related to the repurchase of 11 million shares of common stock during the year at a weighted average price of \$52.74 under the Company's February, May, August and November 2005 share repurchase programs and (ii) quarterly dividend payments of \$0.15 per share, or \$34.2 million. These uses of cash were partially offset by proceeds primarily from the exercise of stock options of \$64 million and a \$40 million draw on a line of credit (see discussion below).

In 2004, the Company repurchased 25 million shares of common stock for \$3.1 billion at an average price of \$24.92 per share. Additionally, the Company repurchased 1.6 million shares of common stock in \$2 billion through the Company's modified Dutch Auction tender offer in December 2004 and 54.6 million shares of common stock for \$1.1 billion through the Company's modified Dutch Auction tender offer in April 2004 and an \$8 million shares of common stock for \$1.4 million related to the Company's share repurchase programs. Financing activities also included dividend payments of \$60 million to the Company's shareholders and special dividend of \$254 million in 2004 to the Company's shareholders on the Company's quarterly dividends. These uses of cash were partially offset by \$498 million in net proceeds related to the issuance of the Company's \$500 million 2004 notes and \$450 million in proceeds related to the Company's commercial agreement line Term Loan that became effective in November 2004 and was \$146 million in proceeds primarily from the exercise of stock options.

The Company has available a \$1.5 billion unsecured revolving credit facility (the "Facility") none of which was used as of January 28, 2006. The Facility is available to support the Company's commercial paper and letter of credit programs, which may be used from time to time to fund working capital and other general corporate requirements. Borrowings outstanding under the Facility are due in November 2009. Fees payable under the Facility are based on the Company's long-term credit ratings and, at January 28, 2006, were \$1.5 million committed amount per year.

The Facility and the Term Loan have several interest rate options, which are based in part on the Company's long-term credit ratings. The interest rate on the Term Loan was 5.33% at January 28, 2006. These agreements

also require the Company to maintain certain specified fixed charge and debt-to-earnings ratios and prohibit certain types of liens on property or assets. The Company was in compliance with the covenant requirements as of January 28, 2006.

On March 27, 2006, the Company amended the Facility and Term Loan agreement. As a result of the amendment, the term of the Facility and Term Loan was extended to March 2011, the repayment schedule of the Term Loan was changed to a single repayment in March 2011 and the fees payable under the Facility, which are based on the Company's long-term credit ratings, were reduced from 0.15% to 0.11% on the committed amount per year.

In January 2006, Mast Industries Ltd. ("Mast") initiated a wholly owned subsidiary of United Brands Inc. ("UBI") to enter into a \$60 million unsecured revolving credit facility, the "Mast Credit Facility." The credit facility is available for general corporate purposes, including the funding of dividends to United Brands Inc. The maturity date of the credit facility is January 2010. Annual fees payable under the facility are 0.05% on the outstanding principal amounts which totaled \$30 million as of January 28, 2006. The Company will repay the drawings on the credit facility in eight equal semi-annual installments, with the first installment of \$4 million to be repaid in June 2006.

The Company continuously evaluates its capital needs, financial condition, operating strategies and possible uses of its cash. Accordingly, in February 2006, the Company's Board of Directors authorized the repurchase of up to \$30 million of the Company's outstanding common stock. Through March 17, 2006, 1.5 million shares have been repurchased under this program for \$14.9 million at an average price of \$24.63 per share, which includes broker commissions.

## Capital Expenditures

Capital expenditures totaled \$480 million, \$437 million and \$390 million in 2005, 2004 and 2003, respectively. In each of the years, \$498 million, \$387 million and \$730 million were on new stores and on the remodeling of and improvements to existing stores. Remaining capital expenditures were on plant facilities, investments in new growth concepts and increased spending on technology and process improvements to support future growth.

The Company anticipates spending approximately \$600 to \$650 million on capital expenditures in 2006; the majority of which relates to the remodeling and improvements to existing stores. Additional spending will relate to new financial and operational systems and investment in the Company's Direct businesses, including technology and a new distribution center. The anticipated increase in capital spending in 2006 is primarily driven by the Company's efforts to centralize and upgrade systems and capabilities to be an asset to the consumer relationship marketing, merchandise planning and allocation and demand chain. The Company expects that 2006 capital expenditures will be funded principally by net cash provided by operating activities.

## STORES AND SELLING SQUARE FEET

A summary of stores and selling square feet by business follows.

	End of Year			Change	
	Plan 2006 (a)	2005	2004	Plan 2006 vs. 2005	2005 vs. 2004
<b>Victoria's Secret Stores</b>					
Stores	204	198	180	6	17
Selling square feet	5,177,000	5,000,000	4,866,000	177,000	134,000
<b>Bath &amp; Body Works</b>

<b>Total retail businesses</b>					
Stores	3,478	3,590	3,779	(112)	(189)
Selling square feet	14,774,000	14,142,000	15,800,000	632,000	(1,658,000)

a) Number of stores and selling square feet for 2006 represents the Company's best estimate as of January 28, 2006, and is subject to the risks related to forward-looking statements outlined in the Company's Securities Offering Statement and Item 1A, Risk Factors.

## Easton Investment

The Company has and may other investments in Easton, a 1,400-acre planned community in Columbus, Ohio, that integrates office, hotel, retail, residential and recreational space. These investments, at cost, totaled \$65 million at January 28, 2006 and \$57 million at January 29, 2005.

Included in the Company's Easton investments is an equity interest in Easton Town Center (ETC), an entity that owns and has developed a commercial entertainment and shopping center. The Company's investment in ETC, which the Company accounts for using the equity method, was \$100 million at January 28, 2006 and \$14 million at January 29, 2005. The Company has a minority financial interest in ETC, but another member (the "unaffiliated" member) which the Company is the managing member. Certain significant decisions regarding ETC require the consent of the unaffiliated members in addition to the Company.

Total assets of ETC were approximately \$244 million as of January 28, 2006 and \$238 million as of January 29, 2005. ETC's principal funding source is a \$280 million secured bank loan, of which \$274 million was outstanding at January 28, 2006. The loan is payable in full on May 3, 2011 with the option to request 9-month extensions if certain requirements are met.

## Contingent Liabilities and Contractual Obligations

In connection with the acquisition of certain businesses, the Company has remaining guarantees of approximately \$266 million related to lease payments of Abernethy & Fitch, Too Industries Limited, Tectonix, Spouting Canada, Tanager, Transpro, Lane Bryant and New York & Company under the current terms of noncancelable leases expiring at various dates through 2015 (see Note 6 to the Consolidated Financial Statements in Item 8 Financial Statements and Supplementary Data). These guarantees include minimum rent and additional payments covering taxes, common area costs and certain other expenses and relate to leases that commenced prior to the acquisition of the businesses. In certain instances the Company's guarantee may remain in effect if the term of a lease is extended. The Company believes the likelihood of material liability being triggered under these guarantees is remote.

The following table includes aggregated information about the Company's contractual obligations. These contractual obligations impact the Company's short and long-term liquidity and capital resource needs. The table includes information about maximum value under specified contractual obligations, aggregated by type of contractual obligation (including a major portion of the Company's long-term debt, operating leases and other long-term liabilities as of January 28, 2006).

Contractual Obligations (Millions)	Payments Due by Period				
	Total	Less than 1 Year	1-3 Years	4-5 Years	More than 5 Years
Long-term debt obligations (1)	\$2,792	\$ 81	\$ 403	\$ 439	\$ 869
Operating lease obligations (2)	1,769	539	899	746	195
Purchase obligations (3)	1,335	1,125	152	52	6
Other long-term liabilities (4)	163	—	—	—	163
Total	\$7,959	\$1,745	\$1,454	\$1,237	\$2,523

- Long-term debt obligations relate to principal and interest payments on the Company's outstanding debt's rebates and term loan and one of credit borrowings (see Note 5 to the Consolidated Financial Statements in Item 8 Financial Statements and Supplementary Data). Interest payable has been estimated based on the coupon rate for fixed rate obligations or the variable rate in effect at January 28, 2006 on the Term Loan and the Master Credit Facility. Interest obligations exclude amounts which have been accrued through January 28, 2006. On March 22, 2006, the Company amended the Facility and Term Loan agreement. As a result of the amendment, the term of the Facility and Term Loan was extended to March 2011 and the repayment schedule on the Term Loan was changed to a single repayment in March 2011.
- Operating lease obligations primarily relate to minimum payments due under store lease agreements (see Note 6 to the Consolidated Financial Statements in Item 8 Financial Statements and Supplementary Data).
- Purchase obligations primarily include purchase orders, other standing contracts and other agreements to purchase goods or services that are enforceable and legally binding and that specify significant terms, including fixed or minimum quantities to be purchased, fixed, minimum or variable price provisions, and the approximate timing of the transactions.
- Other long-term liabilities reflect future payments relating to the Company's nonqualified supplemental retirement plan and have been reflected under "Other" as the timing of these future payments is not known until an associate leaves the Company or otherwise requests pension service distribution (see Note 2 to the Consolidated Financial Statements in Item 8 Financial Statements and Supplementary Data).

## Off Balance Sheet Arrangements

Other than those disclosed, the Company has no off balance sheet arrangements as defined by Regulation 229.503 (item 303 (a) (4)).

## Recently Issued Accounting Pronouncements

In December 2004, the Financial Accounting Standards Board issued SFAS No. 123R, "Share-Based Payment" (SFAS No. 123R), which replaces SFAS No. 12, and supersedes APB Opinion No. 25. SFAS No. 123R requires all share-based payments to employees, including grants of employee stock options, to be measured at the fair values at the date of grant and recognized as expense over the service period, which is generally the vesting period. In April 2005, the SEC announced that it would delay the required implementation of SFAS No. 123R to the first interim period beginning after June 15, 2005 to be the first fiscal year beginning after June 15, 2005. Accordingly, the Company will adopt SFAS No. 123R in the first quarter of 2006 using the modified prospective method in which compensation cost is recognized for all awards granted subsequent to the effective date of this statement as well as for the unvested portion of awards outstanding as of the effective date (which is January 29, 2006).

Although it will have no impact on the Company's overall financial position, the impact on pretax earnings of adopting SFAS No. 123R is estimated to be \$30 to \$32 million in 2006. Had the Company adopted SFAS No. 123R in a prior period, the impact would approximate the impact of SFAS No. 123, as described in the disclosure of pro forma net income and earnings per share in Note 1 to the Consolidated Financial Statements in Item 8, Financial Statements and Supplementary Data. SFAS No. 123R also requires tax deduction in excess of recognized compensation cost to be reported as a financing cash flow, rather than as an operating cash flow, in the Consolidated Statements of Cash Flows. Excess tax deductions for future periods cannot be accurately estimated at this time as they depend on the timing of stock option exercises and the Company's share price on the exercise date. Excess tax deductions for the years ended January 28, 2006, January 29, 2005 and January 30, 2004 have been separately classified as tax benefits on the exercise of non-qualified stock options in the Consolidated Statements of Cash Flows.

In February 2006, the Financial Accounting Standards Board issued Statement No. 155, "Accounting for Certain Hybrid Financial Instruments" (an Amendment of FASB Statements No. 32 and 40) (SFAS No. 155), which eliminates the exemption from applying Statement 134 to interests in securitized financial assets and allows election of a fair value measurement at acquisition at issuance or when a previously recognized "mark at" or "mark against" is a trigger event, on an instrument by applying basis in cases in which it decreases with the rise have to be bifurcated. SFAS No. 155 is effective for all financial instruments acquired or issued after the beginning of an entity's first fiscal year that begins after September 15, 2006. The adoption of SFAS No. 155 is not expected to have a material impact on the Company's financial position, results of operations or cash flows.

## Impact of Inflation

The Company's results of operations and financial condition are presented based on historical costs. While it is difficult to accurately measure the impact of inflation due to the imprecise nature of the estimates required, the Company believes the effects of inflation, if any, on the results of operations and financial condition have been minor.

## Critical Accounting Policies and Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period, as well as the related disclosure of contingent assets and liabilities at the date of the financial statements. On an ongoing basis, management evaluates its estimates and judgments, including those related to inventories, long-term assets and contingencies. Management bases its estimates and judgments on historical experience and

various other factors that are believed to be reasonable under the circumstances. Actual results may differ from these estimates. Management has discussed the development and selection of its critical accounting policies and estimates with the Audit Committee, its Board of Directors and believes the following assumptions and estimates are most significant to reporting its results of operations and financial position:

### Inventories

Inventories are principally valued at the lower of cost or market, on a weighted average basis. The Company records an adjustment to its inventories if the unit cost of specific inventory items on hand exceeds the amount the Company expects to realize from the ultimate sale or disposal of the inventory. This estimate is based on management's judgment regarding future demand and market conditions and analysis of historical experience. If actual demand or market conditions are different than those provided by management, future period merchandise margins may be unfavorably affected by adjustments to these estimates.

Another significant estimate related to inventories is an adjustment for estimated physical inventory losses that have occurred since the date of the last physical inventory. This estimate is based on management's analysis of historical results and operating trends.

Management does not believe that the assumptions used in these estimates will change significantly based on future experience. However, a 10% increase or decrease in the inventory valuation adjustment would have impacted net income by approximately \$4 million for the year ended January 26, 2006. A 10% increase or decrease in the estimated physical inventory loss adjustment would have impacted net income by approximately \$2 million for the year ended January 26, 2006.

### Evaluation of Long-lived Assets

Property and equipment and amortizable intangible assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of the asset may not be recoverable. The undiscounted future cash flows from the asset are compared to the carrying value. The Company recognizes a loss equal to the difference between the carrying value and the fair value, as determined by the discounted future cash flows of the asset. Factors used in the valuation include, but are not limited to, management's plans for future operations, brand initiatives, recent operating results and projected cash flows. When a decision has been made to dispose of property and equipment prior to the end of its previously estimated useful life, depreciation estimates are revised to reflect the use of the asset over its shortened estimated useful life.

Intangible assets not subject to amortization are reviewed for impairment annually by comparing the fair value to the carrying value. Goodwill is reviewed annually for impairment by comparing each reporting unit's fair value to its carrying value. Factors used in the valuation of intangible assets and goodwill include, but are not limited to, management's plans for future operations, brand initiatives, recent operating results and projected cash flows. If future economic conditions are different than those projected by management, impairment charges may be required.

### Claims and Contingencies

The Company is subject to various claims and contingencies related to lawsuits, insurance, regulatory and other matters arising out of the normal course of business. The Company's determination of the treatment of claims and contingencies in the Consolidated Financial Statements is based on management's view of the expected outcome of the applicable claim or contingency. The Company consults with legal counsel on matters related to litigation and seeks opinion from other experts both within and outside the Company with respect to matters in the ordinary course of business. The Company accrues a liability if the likelihood of an adverse outcome is probable and the amount is estimable. If the likelihood of an adverse outcome is only reasonably possible, as imposed or probable and if an estimate cannot be determined, disclosure of a material claim or contingency is made in the Notes to the Consolidated Financial Statements.

## Income Taxes

Significant judgment is required in determining the provision for income taxes and related accruals, deferred tax assets and liabilities. In the ordinary course of business there are transactions and calculations where the ultimate outcome is uncertain. Additionally, the Company's tax returns are subject to audit by various domestic and foreign tax authorities. Although the Company believes that its estimates are reasonable, actual results could differ from these estimates resulting in a final tax outcome that may be materially different from that which is reflected in the Company's Consolidated Financial Statements.

## Revenue Recognition

While the Company's recognition of revenue does not involve significant judgment, revenue recognition represents an important accounting policy of the Company. The Company recognizes revenue upon customer receipt of the merchandise for catalog and e-commerce sales. For Company stores, sales which have not been received by the customer based on shipping terms and historical delivery times. The Company also provides a reserve for projected merchandise returns based on prior experience.

A portion of the Company's business is gift cards with no expiration dates. The Company recognizes income from gift cards when they are redeemed by the customer. In addition, the Company recognizes income on unredeemed gift cards when it can determine that the likelihood of the gift card being redeemed is remote and that there is no legal obligation to remit the unredeemed gift cards. Relevant considerations regarding breakage. In Company determination of the gift card breakage rate based on historical redemption patterns. During the fourth quarter of 2014, the Company accumulated enough historical data to determine the gift card breakage rate at Bath & Body Works. Once the breakage rate is determined, it is recognized over a 36 month period based on historical redemption patterns of each brand segment. Gift card breakage is included in net sales in the Consolidated Statements of Income.

During the fourth quarter of 2014, the Company recognized \$30 million in pretax income related to the initial recognition of gift card breakage at Victoria's Secret and Bath & Body Works. The Company will recognize gift card breakage at Victoria's Secret and Bath & Body Works when adequate historical data exists.

## ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

### Market Risk

Management believes the Company's exposure to interest rate, foreign currency and market risk associated with financial instruments such as investments and borrowings is not material.

### Fair Value of Financial Instruments

The carrying value of cash equivalents, accounts receivable, accounts payable and accrued expenses approximates fair value because of the short maturity. The fair value of long-term debt is estimated based on the quoted market prices for the same or similar issues. The estimated fair value of the Company's long-term debt in January 28, 2015 and January 30, 2014 was \$1.6 billion and \$1.7 billion compared to the carrying value of \$1.7 billion and \$1.6 billion, respectively.

### Concentration of Credit Risk

The Company maintains cash and cash equivalents with various major financial institutions, as well as corporate certificates of deposit. The Company monitors the relative credit standing of these financial institutions and other entities and limits the amount of credit exposure with any one entity. The Company also monitors the creditworthiness of the entities to which it grants credit terms in the normal course of business.

## Safe Harbor Statement Under the Private Securities Litigation Reform Act of 1995

The Company cautions that any forward-looking statements, as such term is defined in the Private Securities Litigation Reform Act of 1995, contained in this report or made by the Company or management of the Company involve risks and uncertainties and are subject to change based on various important factors, many of which are beyond the Company's control. Accordingly, the Company's future performance and financial results may differ materially from those expressed or implied in any such forward-looking statements. Words such as "estimates," "project," "plan," "believe," "expect," "anticipate," "intend," "planned," "potential" and similar expressions may denote forward-looking statements. The following, among others, in some cases have affected and in the future could affect the Company's financial performance and actual results and could cause actual results to differ materially from those expressed or implied in any forward-looking statements included in this report or otherwise made by the Company or management: risks associated with general economic conditions; consumer confidence and consumer spending patterns; the potential impact of national and international security concerns on the retail environment, including any possible military action, terrorist attacks or other hostilities; risks associated with the seasonality of the Company's business; risks associated with changes in weather patterns; risks associated with the highly competitive nature of the retail market generally and the segments in which we operate; particular risks related to the assumptions of the Company's products and the Company's ability to keep up with fashion trends; develop new merchandise; launch new product lines successfully; select products at the appropriate price points and enhance the Company's merchandise; risks associated with the Company's ability to retain store and training personnel; and management risks associated with the possible inability of the Company's manufacturers to deliver products in a timely manner; market; sales; estimates; risks associated with the Company's reliance on foreign sources; production; manufacturing risks related to the disruption of imports by labor disputes; risks related to political instability; risks associated with legal and regulatory matters; risk related to duties, taxes, other charges and quotas on imports; risks related to retail business practices and political issues; and risks related to currency and exchange rates. Risks associated with the possible lack of availability of suitable store locations in appropriate terms; risks associated with increases in the costs of energy, paper and printing; risks associated with our ability to service any debt we may in the future to finance, as well as the requirements of the agreements related to our debt impose upon us; and risks associated with the Company's reliance on information technology, including risks related to the implementation of new information technology systems and risks related to utilizing the capacities of our e-commerce information technology services; risks associated with natural disasters; and risks associated with rising energy costs. The Company is not under any obligation and does not intend to make public a statement or update a statement to any of the forward-looking statements contained in this report to reflect circumstances existing after the date of this report or to reflect the occurrence of future events even if experience or developments make it clear that any expected results expressed or implied by those forward-looking statements will not be realized.

## Management's Report on Internal Control Over Financial Reporting

Management is responsible for establishing and maintaining adequate internal control over financial reporting as defined in Rules 13a-5 and 15d-5 under the Securities Exchange Act of 1934. The Company's internal control system is designed to provide reasonable assurance to the Company's management and Board of Directors regarding the preparation and fair presentation of published financial statements. Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. There are also those systems determined to be effective that provide only reasonable assurance with respect to financial statement preparation and presentation. A serious projection of any evaluation of effectiveness of a control system is subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Management assessed the effectiveness of the Company's internal control over financial reporting as of January 28, 2006. In making this assessment, management used the criteria established in Internal Control—Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) later.

Based on our assessment and the COSO criteria, management believes that the Company maintained effective internal control over financial reporting as of January 28, 2006.

The Company's independent registered public accounting firm, Ernst & Young LLP, has issued an attestation report on management's assessment of the Company's internal control over financial reporting. Ernst & Young LLP's report appears on the following page and expresses its qualified opinion on management's assessment and on the effectiveness of the Company's internal control over financial reporting as of January 28, 2006.

## Report of Independent Registered Public Accounting Firm on Internal Control Over Financial Reporting

To the Board of Directors and Shareholders of  
Limited Brands, Inc.

We have audited management's assessment, included in the accompanying Management's Report on Internal Control Over Financial Reporting, that Limited Brands, Inc. and subsidiaries maintained effective internal control over financial reporting as of January 28, 2006, based on criteria established in Internal Control—Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (the COSO), that Limited Brands, Inc.'s management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting. Our responsibility is to express an opinion on management's assessment and an opinion on the effectiveness of the Company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, evaluating management's assessment, testing and evaluating the design and operating effectiveness of internal control, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that: (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorized management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, management's assessment that Limited Brands, Inc. maintained effective internal control over financial reporting as of January 28, 2006, is fairly stated in all material respects based on the COSO criteria. Also, in our opinion, Limited Brands, Inc. maintained in all material respects effective internal control over financial reporting as of January 28, 2006, based on the COSO criteria.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the Consolidated Balance Sheets of Limited Brands, Inc. and subsidiaries as of January 28, 2006 and January 29, 2005, and the related Consolidated Statement of Income, Shareholders' Equity, and Cash Flows for each of the three years in the period ended January 28, 2006, of Limited Brands, Inc. and subsidiaries, and our report dated March 2, 2006, expressed an unqualified opinion thereon.

/s/ Ernst & Young LLP

Columbus, Ohio  
March 23, 2006

## **Report of Independent Registered Public Accounting Firm on Consolidated Financial Statements**

**To the Board of Directors and Shareholders of  
Limited Brands, Inc.**

We have audited the accompanying Consolidated Balance Sheets of Limited Brands, Inc. and subsidiaries as of January 28, 2006 and January 29, 2005, and the related Consolidated Statements of Income, Shareholders' Equity, and Cash Flows for each of the three years in the period ended January 28, 2006. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of Limited Brands, Inc. and subsidiaries at January 28, 2006 and January 29, 2005, and the consolidated results of the operations and their cash flows for each of the three years in the period ended January 28, 2006, in conformity with U.S. generally accepted accounting principles.

As discussed in Note 2 to the consolidated financial statements, the Company changed its method of accounting for inventories in 2005.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the effectiveness of Limited Brands, Inc.'s internal controls over financial reporting as of January 28, 2006, based on criteria established in Internal Control—Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission and our report dated March 24, 2006, expressed an unqualified opinion thereon.

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

### 1 Description of Business and Summary of Significant Accounting Policies

#### Description of Business

Limited Brands, Inc. (the "Company") sells women's intimate apparel, personal care and beauty products, and women's children's apparel under various trade names through its specialty retail stores, primarily mail-based and direct response channels (catalogue and e-commerce).

#### Principles of Consolidation

The Consolidated Financial Statements include the accounts of the Company and its subsidiaries. All significant intercompany balances and transactions have been eliminated in consolidation.

Investments in unconsolidated entities over which the Company exercises significant influence but does not have control are accounted for using the equity method. The Company's share of net income (loss) of unconsolidated entities, in which the Company purchases merchandise or merchandise components, is included in cost of goods sold. The Company's share of the net income or loss of all other unconsolidated entities is included in other income (loss).

#### Fiscal Year

The Company's fiscal year ends on the Saturday closest to January 1. Fiscal years are designated in the Consolidated Financial Statements and Notes by the calendar year in which the fiscal year commences. The results of fiscal years 2005, 2006 and 2007 represent the full two week periods ended January 28, 2006, January 29, 2007 and January 31, 2008.

#### Cash and Cash Equivalents

Cash and cash equivalents include cash on hand, demand deposits with financial institutions and highly liquid investments with original maturities of less than 90 days. Accounts payable includes \$154 million and \$142 million of outstanding checks at January 28, 2006 and January 29, 2007, respectively.

#### Inventories

Inventories are principally valued at the lower of cost, as determined by the weighted average cost method, or market. Prior to 2005, inventories were principally valued at the lower of cost, as determined by the weighted average retail inventory method, or market (see Note 2).

#### Store Supplies

The initial shipment of selling-related supplies (primarily hangers, signage and security tags) is capitalized at the store opening date. Subsequent shipments are expensed, except for new merchandise presentation programs which are capitalized. Store supplies are adjusted as appropriate for changes in actual quantities or costs. Store supplies are included in other current assets in the accompanying Consolidated Balance Sheets.

#### Direct Response Advertising

The Company capitalizes the direct costs of producing and distributing its catalogues and amortizes the costs over the expected direct-response stream, which is generally three months from the date catalogues are mailed. Capitalized direct-response advertising costs of \$24 million at January 28, 2006 and \$23 million at January 29, 2007 are included in other current assets in the accompanying Consolidated Balance Sheets. All other advertising costs are expensed at the time the promotion first appears in media or in the store. Catalogue and advertising costs amounted to \$51.7 million in 2005, \$49.7 million in 2006 and \$41.1 million in 2007.

## Property and Equipment

Depreciation of property and equipment is computed on a straight-line basis, using the following service lives:

Software	3 - 7 years
Store related assets	3 - 10 years
Leasehold improvements	Shorter of lease term or 10 years
Non-store related building and site improvements	10 - 15 years
Other property and equipment	3-5 years
Buildings	30 years

When a decision has been made to dispose of property and equipment prior to the end of the previous estimated useful life, depreciation estimates are revised to reflect the use of the asset over the shortened estimated useful life. The cost of assets sold or retired and the related accumulated depreciation are removed from the accounts with any resulting gain or loss included in net income. Maintenance and rental are charged to expense as incurred. Major renewals and betterments that extend service lives are capitalized.

Property and equipment are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of the asset may not be recoverable. If the undiscounted future cash flows from the property and equipment are less than the carrying value, the Company recognizes a loss equal to the difference between the carrying value and the fair value, usually determined through a discounted cash flows analysis. Factors used in the valuation of property and equipment include, but are not limited to: management's plans for future operations, brand initiatives, recent operating results and projected cash flows.

## Goodwill and Intangible Assets

The Company has certain intangible assets resulting from business acquisitions that are recognized at cost. Intangible assets subject to amortization are amortized primarily on a straight-line basis over their respective estimated useful lives, ranging from 5 to 15 years, and are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of the asset may not be recoverable. Intangible assets are amortized based on the sell-through of the related products. Over the shorter of the term of the license agreement or the estimated useful life of the asset, not to exceed 15 years. Intangible assets not subject to amortization are reviewed for impairment at least annually by comparing the carrying value to the fair value.

Goodwill, representing the excess of the purchase price over the fair value of the net assets acquired, is not subject to periodic amortization. Goodwill is reviewed for impairment at least annually and may be reviewed more frequently if certain events occur or circumstance change. Goodwill is reviewed for impairment by comparing each reporting unit's carrying value to its fair value.

Factors used in the valuation of intangible assets and goodwill include, but are not limited to: management's plans for future operations, brand initiatives, recent operating results and projected cash flows.

## Leases and Leasehold Improvements

During 2004, the Company, in consultation with its independent auditors, concluded that its previous accounting practices related to the accounting for straight-line rent and the depreciation and amortization of leasehold improvements and certain landlord allowances were not correct. According to the fourth quarter of 2004, the Company recorded a one-time pretax charge of \$61 million, which included a certain goodwill, buying and occupancy in the Consolidated Statement of Income, to reflect the corrections more fully described below.

Historically, the Company recognized straight-line rent expense for leases beginning on the earlier of the store opening date or lease commencement date, resulting in the exclusion of the store hand-out period. Rent Holiday is not the period over which it amortized its rent expense. In the fourth quarter of 2004, the Company adjusted its straight-line rent accruals of all applicable leases to reflect the recognition of rent expense over a period that includes the Rent Holiday period, resulting in cumulative additional rent expense of \$4 million.

In addition, the Company had previously depreciated leasehold improvements over a period of up to 10 years, which, primarily due to store remodeling activity, resulted in certain leasehold improvements being depreciated over a period beyond the contractual lease term. In the fourth quarter of 2004, the Company adjusted the net book value of its leasehold improvements to reflect useful lives equal to the lesser of the estimated useful lives of the assets or the contractual term of the lease, resulting in cumulative additional depreciation expense of \$30 million. In addition, the Company had previously amortized certain off-hold allowances beyond the contractual lease term. The Company adjusted these off-hold allowances to reflect amortization over the contractual term of the lease, resulting in a cumulative reduction in rent expense of \$6 million.

The Company evaluated the impact of these revised accounting practices from a qualitative and quantitative perspective. From a quantitative perspective, had the revised accounting practices been applied retroactively, reported pretax income from continuing operations would have increased by \$7 million and \$1 million in 2004 and 2003. Additionally, these corrections do not impact the Company's historical cash flows or financing of lease-related payments. From a qualitative perspective, the retrospective application of these revised accounting practices would not have had a significant impact on earnings trends, individual segment results, earnings expectations or debt covenants or other contractual requirements. Based on this evaluation, the Company concluded that a restatement of prior period results was not required as the impact of these corrections was not material to the Company's historical results or cash flows.

## Income Taxes

The Company accounts for income taxes using the asset and liability method. Under this method, deferred tax assets and liabilities are recognized based on the difference between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates in effect in the years when those temporary differences are expected to reverse. The effect of deferred taxes of a change in tax rates is recognized in income in the period that includes the enactment date.

## Self Insurance

The Company is self-insured for medical, worker's compensation, general liability and automobile benefits up to certain stop loss limits. Such costs are accrued based on known facts and circumstances and reported (IBNR) claims. IBNR claims are estimated using historical claims information and actuarial estimates.

## Minority Interest

In January 2003, the Company and an investment partner acquire a personal care products business. Net assets of the acquired company consisted primarily of \$75 million of intangible assets subject to an amortization and \$40 million of goodwill. Based on the economic rights and obligations of the Company and the investment partner, the Company is required to consolidate the acquired company in accordance with Financial Accounting Standards Board Interpretation No. 46R, Consolidation of Variable Interest Entities. The investment partner's equity interest in the acquired company has been reflected as minority interest in the Consolidated Balance Sheets and will be increased or decreased based on future earnings, capital contributions and distributions.

## Revenue Recognition

The Company recognizes sales upon customer receipt of the merchandise, which for catalogue and e-commerce revenues reflects an estimate of shipments that have not yet been received by the customer based on shipping

items and estimated discounts. Shipping and handling revenues are included in net sales and the related costs are included in costs of goods sold, buying and occupancy. The Company also provides a reserve for projected merchandise returns based on prior experience.

The Company's brands sell gift cards with no expiration dates. The Company recognizes income from gift cards when they are redeemed by the customer. In addition, the Company recognizes income on unredeemed gift cards when it can determine that the likelihood of the gift card being redeemed is remote and that there is no legal obligation to return the unredeemed gift card or refund for merchandise. Gift card breakage. The Company determines the gift card breakage rate based on historical redemption patterns. During the fourth quarter of 2005, the Company accumulated enough historical data to determine the gift card breakage rate at both Express and Bath & Body Works. Once the breakage rate is determined, it is recognized on a six-month period based on historical redemption patterns of each brand's gift cards. Gift card breakage is included in net sales in the Consolidated Statements of Income.

During the fourth quarter of 2005, the Company recognized \$30 million in pretax income related to the initial recognition of gift card breakage at Express and Bath & Body Works. The Company will recognize gift card breakage at Victoria's Secret and White House Stores when adequate historical data exists.

### Costs of Goods Sold, Buying and Occupancy

Costs of goods sold includes merchandise costs, net of discounts and allowances for gift and inventory shrinkage. Buying and occupancy expenses primarily include payroll, benefit costs and operating expenses of the Company's buying and participating sales representatives, rent, common area maintenance, warehouse utilities, maintenance, catalogue amortization and depreciation for the Company's stores, warehouse facilities and equipment.

### General, Administrative and Store Operating Expenses

General, administrative and store operating expenses primarily include payroll and benefit costs of the Company's store, buying and administrative departments including corporate functions, advertising and other operating expenses not specifically categorized elsewhere in the Consolidated Statements of Income.

### Gains on Sale of Investee's Stock

During the second quarter of 2004, the Company sold its remaining ownership interest in Calvan's Trading Company, Inc. ("Calvan's") for \$65 million resulting in a pretax gain of \$18 million. Prior to the sale of Calvan's shares, the Company accounted for its investment using the equity method.

During the first quarter of 2003, the Company sold approximately one-half of its ownership interest in Alliance Data Systems Corporation ("ADS") for \$13 million resulting in a pretax gain of \$10 million. During the third quarter of 2003, the Company sold its remaining ownership interest in ADS for \$19 million resulting in a pretax gain of \$17.8 million. Prior to these sales of ADS shares, the Company accounted for its investment using the equity method.

### Earnings Per Share

Earnings per basic share is computed based on the weighted-average number of outstanding common shares. Earnings per diluted share includes the weighted-average effect of dilutive options and restricted stock on the weighted-average shares outstanding.

Shares at zero for the calculation of basic and diluted earnings per share for the years ending January 28, 2006, January 29, 2005 and January 31, 2004 were as follows:

(Millions)	2005	2004	2003
Common shares issued	524	524	524
Treasury shares	(121)	(54)	(5)
Basic shares	403	470	519
Effect of dilutive options and restricted stock	8	0	7
Diluted shares	411	470	526

The computation of earnings per diluted share excludes options to purchase approximately 6 million, 4 million and 11 million shares of common stock in 2005, 2004 and 2003, because the options' exercise prices were greater than the average market price of the common shares during the year and, accordingly, the impact of such options would have been antidilutive.

### Stock-Based Compensation

The Company recognizes a compensation expense associated with stock-based awards under the recognition and measurement principles of Accounting Principles Board Opinion No. 25, "Accounting for Stock Issued to Employees" (APB No. 25), and related interpretation, "Under APB No. 25, because the exercise price of the Company's stock options is generally equal to the market price of the underlying stock on the date of grant, the compensation expense is generally recognized in accordance with Financial Accounting Standards No. 73, "Accounting for Stock-Based Compensation" (SFAS No. 73), established an alternative method of expense recognition for stock-based compensation awards based on fair values.

The following table illustrates the effect on net income and earnings per share the Company had applied the fair value recognition provisions of SFAS No. 123:

Pro Forma Net Income and Earnings Per Share (\$illions except per share amounts)	2005	2004	2003
Net income, as reported	\$ 683	\$ 705	\$ 717
Add: stock compensation was recorded under APB No. 25, net of tax	7	5	2
deduct: stock compensation cost allocated under SFAS No. 123, net of tax	(79)	(13)	(18)
Pro forma net income	\$ 661	\$ 677	\$ 699
Earnings per share:			
Basic, as reported	\$ 1.71	\$ 1.50	\$ 1.38
Basic, pro forma	\$ 1.64	\$ 1.44	\$ 1.34
Diluted, as reported	\$ 1.66	\$ 1.47	\$ 1.36
Diluted, pro forma	\$ 1.62	\$ 1.43	\$ 1.32

The stock compensation cost recorded by the Company primarily relates to restricted stock expense and compensation expense resulting from the exchange of both vested and unvested Intabate Brands, Inc. ("IBI") stock awards in connection with the recombination of IBI and the Company (see Note 5). Stock compensation expense related to the IBI recombination was recognized in accordance with Emerging Issues Task Force (EITF) Issues Related to the Accounting for Stock Compensation under APB Opinion No. 25 and FASB Interpretation No. 44 ("EITF No. 00-23").

The weighted average per share fair value of options granted by the Company, \$2.54, \$6.25 and \$4.08, for 2005, 2004 and 2003, respectively, was used to calculate the pro-forma compensation expense under SFAS No. 123.

The fair value was estimated using the Black-Scholes option pricing model with the following assumptions for 2005, 2006 and 2007, respectively: dividend yields of 3.7%, 3.6% and 3.2%; volatility of 39%, 44% and 44%; risk-free interest rates of 4.63%, 4.75% and 5.12%; and expected lives of 5 years, 5.5 years and 5.7 years.

### Recently Issued Accounting Pronouncements

In December 2004, the Financial Accounting Standards Board issued SFAS No. 123R, "Share-Based Payment" (SFAS No. 123R), which replaces SFAS No. 123 and supersedes APB Opinion No. 25. SFAS No. 123R requires all share-based payments to employees, including grants of employee stock options, to be measured at the fair value at the date of grant and recognized as expense over the service period, which is generally the vesting period. In April 2005, the SEC announced that it would delay the required implementation of SFAS No. 123R to the first interim period beginning after June 15, 2005, to the first fiscal year beginning after June 15, 2005. Accordingly, the Company will adopt SFAS No. 123R in the first quarter of 2006 using the modified prospective method in which the compensation cost is recognized for all awards granted subsequent to the effective date of this statement as well as for the unvested portion of awards outstanding as of the effective date (which is January 29, 2006).

Although it will have no impact on the Company's overall financial position, the impact on pretax earnings of adopting SFAS No. 123R is estimated to be approximately \$10 million in 2006. Had the Company adopted SFAS No. 123R in a prior period, the impact would approximate the impact of SFAS No. 123 as described in the disclosure in the Form 10-K filing and earnings per share in the preceding years. Since SFAS No. 123R also requires tax deduction in cases of "recognized" compensation cost to be reported as a financing cash flow rather than as an operating cash flow, in the Consolidated Statement of Cash Flows, tax-excess deductions for future periods cannot be accurately estimated at this time, as they depend on the timing of stock option exercises and the Company's share price on the exercise date. Tax-excess deductions of the years ended January 28, 2006, January 29, 2005 and January 31, 2004 have been separately disclosed as tax benefits in the exercise of non-qualified stock options in the Consolidated Statements of Cash Flows.

In February 2006, the Financial Accounting Standards Board issued Statement No. 155, "Accounting for Certain Financial Instruments—an amendment of FASB Statement No. 133 and of SFAS No. 155," which eliminates the exemption from applying Statement 133 to transfers of securitized financial assets and allows election of a fair value measurement at acquisition at issuance, or when a previously recognized financial instrument is subject to a remeasurement event, on an instrument-by-instrument basis in cases in which a determination of whether or not to be bifurcated. SFAS No. 155 will apply for all financial instruments acquired or issued after the beginning of an entity's first fiscal year that begins after September 15, 2006. The adoption of SFAS No. 155 is not expected to have a material impact on the Company's financial position, results of operations or cash flows.

### Use of Estimates in the Preparation of Financial Statements

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amount of revenues and expense during the reporting period, as well as the reported measure of contingent assets and liabilities at the date of the financial statements. Because actual results may differ from these estimates, the Company revises its estimates and assumptions as new information becomes available.

### Reclassifications

Certain prior year amounts have been reclassified to conform to the current year presentation.

## 2. Change in Accounting Principle

During the fourth quarter in 2005, the Company changed its inventory valuation method. Previously, inventories were principally valued at the lower of cost or market, on a weighted-average cost basis, using the retail method. Commencing in 2005, inventories are principally valued at the lower of cost or market, on a weighted-average cost basis, using the cost method. The Company believes the cost method is preferable as compared to the retail method because it will decrease the organizational focus on the actual margin realized on each sale. Additionally, it is consistent with the practices of many other retailers as well as the Company's personal care and beauty competitors.

The cumulative effect of this change was \$17 million, net of tax of \$11 million. This change was recognized as an increase to net income in the Consolidated Statement of Income as of the beginning of the first quarter in 2005. In addition to the \$11 million cumulative impact recognized as of the beginning of the first quarter, the effect of the change during 2005 was to decrease net income by \$4 million, or \$0.01 per diluted share. 2005 quarterly financial statements have been restated to reflect the adoption of this change as of the beginning in 2005 (see Note 6). Reported results of periods prior to fiscal 2005 have not been restated.

The fiscal 2004 pro forma Consolidated Statement of Income is presented below as adjusted for the effect of the retroactive application of the cost method, net of related taxes, as if the new method had been in effect for that entire fiscal year.

	Year Ended January 29, 2005		
	Retail Method (As Reported)	Effect of Change	Cost Method
Revenues	\$ 2,408	\$-	\$ 2,408
Costs of goods sold, buying and occupancy	(1,114)	(1)	(1,115)
Gross profit	1,294	(1)	1,293
General, administrative and store operating expenses	(1,167)	-	(1,167)
Operating income	1,127	(1)	1,126
Interest and other income, net	20	-	20
Income before income taxes	1,147	(1)	1,146
Provision for income taxes	41	1	42
Net income	\$ 705	\$(1)	\$ 702
Net income per basic share	\$ .51	\$-	\$ .51
Net income per diluted share	\$ .47	\$-	\$ .47

The pro forma impact of this change in the Consolidated Statement of Income for fiscal 2003 is not determinable because the information necessary to determine the weighted-average cost using the cost method as of the beginning of that year is no longer available.

## 3. Sale of New York & Company

On November 22, 2003, the Company sold one of its Apparel businesses, New York & Company, to an investor group led by the business unit's President and Chief Executive Officer and affiliates of Bear Stearns Merchant Banking. Under the terms of the agreement, the Company received \$29 million in cash, a \$34 million 10% subordinated note and November 2004 the New York & Company Note, and warrants for approximately 13% of the common equity of the new company, the New York & Company Warrants. A \$26 million debt unit was recorded in the New York & Company Note, which was being accreted to income over the term of the note.

During 2003, the Company received approximately \$38 million in additional cash consideration based on New York & Company's net working capital at closing.

During the first quarter of 2004, the Company recognized a \$45 million gain resulting from New York & Company's early repayment of the New York & Company Note and purchase of the New York & Company Warrants. The note and warrants had a carrying value, including accrued interest, of \$60 million.

In connection with the agreement to prepay the note and purchase the warrants, as amended on August 5, 2003, New York & Company agreed to make an additional payment to Limited Brands. New York & Company completed an initial public offering pursuant to a registration statement filed on or before December 31, 2003 or was sold pursuant to an agreement entered into on or before December 31, 2003 and the implied equity value of New York & Company based upon one of the above transactions exceeded \$157 million. During the third quarter of 2004, New York & Company completed an initial public offering and the Company received the agreed upon payment of \$45 million, at which time the Company recognized a \$45 million pre-tax non-operating gain.

The Company will continue to provide certain corporate services to New York & Company under service agreements which expire at various dates through 2007.

#### 4. Property and Equipment, Net

Property and equipment, net at January 28, 2006 and January 29, 2005 were as follows:

(Millions)	2005	2004
Land	\$ 64	\$ 64
Buildings and improvements	174	194
Furniture, fixtures and equipment	2,218	2,280
Leaseholds and improvements	74	16
Construction in progress	50	98
Total	2,580	2,752
Accumulated depreciation and amortization	584	6,798
Property and equipment, net	\$ 1,996	\$ 1,954

#### 5. Goodwill, Trade Names and Other Intangible Assets, Net

In 2002, the Company completed a leveraged tender offer and merger, which resulted in the acquisition of the LBI minority interest. The acquisition resulted in the recombination of LBI and Limited Brands (booked at \$600 million related to Victoria's Secret and \$60 million related to Bath & Body Works primarily resulted from the acquisition of the LBI minority interest).

An additional \$60 million goodwill was recorded as a result of the Company's acquisitions of personal care product businesses in 2004 and 2005. In addition, the Company adjusted goodwill in 2004 related to the finalization of the purchase price of the 2004 acquisition.

Intangible assets, not subject to amortization, represent trade names that were recorded in connection with the acquisition of the LBI minority interest and totaled \$41 million as of January 28, 2006 and January 29, 2005.

Intangible assets, subject to amortization, primarily license agreements, trade names and customer lists were as follows:

(Millions)	2005	2004
Gross carrying amount	\$ 81	\$ 85
Accumulated amortization	(45)	(34)
Intangible assets, net	\$ 36	\$ 51

Amortization expense was \$1 million in 2005, \$8 million in 2004 and \$8 million in 2003. Estimated future minimum amortization expense will be approximately \$10 million in 2006, \$8 million in 2007, \$8 million in 2008, \$2 million in 2009, \$2 million in 2010 and \$11 million thereafter.

#### 6. Leased Facilities, Commitments and Contingencies

Annual store rent consists of a fixed minimum amount and/or contingent rent based on a percentage of sales exceeding a stipulated amount.

Rent expense for the years ended January 28, 2006, January 29, 2005 and January 31, 2004 was as follows:

(Millions)	2006	2004	2003
Store rent			
fixed minimum	\$518	\$517	\$492
Contingent	62	56	46
Total store rent	\$580	\$573	\$538
Equipment and other	34	36	42
Gross rent expense	\$614	\$609	\$580
Sublease rental income	(18)	(9)	(9)
Total rent expense	\$596	\$599	\$571

In 2004, fixed minimum store rent expense includes a \$22 million price mark-down charge—compared to Company's accounting for leases as "Store" for leases that contain price reductions as a condition of the minimum rentals and/or rent abatements subsequent to taking possession of the leased property. The Company recognizes the related rent expense on a straight-line basis and records the difference between the straight-lined rent expense and amounts payable under the leases as deferred lease credits, which are included in other long-term liabilities. This liability amounted to \$94 million and \$95 million at January 28, 2006 and January 29, 2005, respectively.

Landlord allowances received upon entering into certain store leases are recorded as a long-term deferred gain and are amortized on a straight-line basis as a reduction to rent expense over the lease term. The amount received of landlord allowances was included in other long-term liabilities and amounted to \$170 million and \$160 million at January 28, 2006 and January 29, 2005, respectively.

At January 28, 2006, the Company was committed to noncancelable leases with remaining terms generally between one to ten years. A substantial portion of these commitments consist of store leases generally with an initial term of ten years. Store lease terms generally require additional payments covering taxes, common area costs and certain other expenses. The obligations for these additional payments are excluded from the table below.

The Company's minimum rent commitments under noncancelable leases are as follows:

(Millions)	
2006	\$ 539
2007	476
2008	411
2009	387
2010	359
Thereafter	1,095

At January 28, 2006, the Company's future sublease income under noncancelable subleases was \$43 million, which includes \$13 million of rent commitments related to disposed businesses under master lease arrangements.

In conjunction with the disposition of certain businesses, the Company has remaining guarantees of approximately \$266 million related to lease payments of Abercrombie & Fitch, Toys 'R Us (formerly known as Toys 'R Us), Spinning Clouds (formerly Crayons), Lane Bryant and New York & Company under the current terms of noncancelable leases expiring at various dates through 2015. These guarantees include minimum rent and additional payments covering taxes, common area costs and certain other expenses and relate to leases that commenced prior to the disposition of the businesses. In certain instances, the Company's guarantees may remain in effect if the term of a lease is extended. The Company believes the likelihood of material liabilities being triggered under these guarantees, with respect to existing and extended leases, is remote.

The Company has and has other investments in Easton, a 1,400-acre planned community in Columbus, Ohio, that integrates office, hotel, retail, residential and recreational space. These investments, at a cost of \$65 million at January 28, 2006 and \$47 million at January 29, 2005 and are recorded in Other Assets in the Consolidated Balance Sheets.

In addition, the Company's associates own an equity interest in Easton Town Center ("ETC"), a privately held company that owns and has developed a commercial office, shopping and shopping center. The Company's investment in ETC was \$400 million at January 28, 2006 and \$400 million at January 29, 2005, which the Company accounts for using the equity method. The Company has a majority financial interest in ETC, but other members that is not affiliated with the Company is the managing member. Certain significant decisions regarding ETC require the consent of the unaffiliated members in addition to the Company.

Other assets of ETC were approximately \$214 million as of January 28, 2006 and \$236 million as of January 29, 2005. ETC's primary underwriter is a \$200 million secured bank loan, of which \$22 million was outstanding at January 28, 2006. The loan is payable in full on May 3, 2011, with the option of a working capital extension if certain requirements are met.

The Company is subject to various claims and contingencies related to workers' compensation, insurance, litigation and other matters arising out of the normal course of business. Management believes that the ultimate liability arising from such claims and contingencies, if any, is not likely to have a material adverse effect on the Company's results of operations, financial condition or cash flows.

During the fourth quarter of 2005, the Company received \$8.5 million from a favorable litigation settlement with respect to merchant fees previously paid to Visa and MasterCard. The settlement was recognized in 2005 as a reduction in general, administrative and store operating expenses.

## 7. Accrued Expenses and Other

Accrued expenses and other at January 28, 2006 and January 29, 2005 were as follows:

(Millions)	2006	2005
Deferred revenue	\$234	\$225
Compensation, payroll taxes and benefits	154	144
Taxes, other than income	78	71
Returns reserve	38	42
Insurance	31	39
Rent	41	37
Interest	25	76
Current portion of long-term debt	7	7
Other	203	42
Total accrued expenses and other	\$508	\$516

## 8. Income Taxes

The components of the Company's provision for income taxes for the years ended January 28, 2006, January 29, 2005 and January 31, 2004 were as follows:

<u>Provision for Income Taxes (Millions)</u>	<u>2005</u>	<u>2004</u>	<u>2003</u>
Currently payable			
Federal	\$363	\$285	\$347
State	76	74	64
Foreign	5	5	5
Total	444	364	426
Deferred			
Federal	(55)	74	25
State	(2)	(7)	(2)
Total	(57)	67	23
Benefit on repatriation—foreign earnings	17		
Provision for income taxes	\$399	\$431	\$426

The foreign component of pretax income arising principally from overseas sourcing operations was \$56 million in 2005, \$46 million in 2004 and \$34 million in 2003.

The reconciliation between the statutory federal income tax rate and the effective tax rate for the years ended January 28, 2006, January 29, 2005 and January 3, 2004 was as follows:

<u>Reconciliation Between the Statutory Federal Income Tax Rate and the Effective Tax Rate</u>	<u>2005</u>	<u>2004</u>	<u>2003</u>
Federal income tax rate	35.0%	35.0%	35.0%
State income taxes, net of Federal income tax effect	3%	4.2%	3.5%
Other tax rate	(11.9%)	(2.6%)	
Benefit on repatriation of foreign earnings at reduced rate	0%	36.8%	58.5%
Effective tax rate	26.2%	70.4%	97.0%

The Company's effective tax rate has historically reflected and continues to reflect a provision relative to the undistributed earnings of foreign affiliates. The Company has recorded a deferred tax liability for those amounts, but the taxes are not paid until the earnings are deemed repatriated to the United States.

The timing when earnings are repatriated has been a matter of dispute with the Internal Revenue Service ("IRS"). The IRS assessed the Company for taxes and interest for the years 1992 to 2002 on the basis that a portion of the foreign earnings had been repatriated. In September 1999, the United States Tax Court sustained the position of the IRS with respect to the 1992 year. In connection with an appeal of the Tax Court judgment, in 1999 the Company made a \$12 million payment of taxes and interest for the years 1992 to 1998.

In March 2002, the U.S. Court of Appeals for the Sixth Circuit ruled in favor of the Company, reversing the previous Tax Court judgment relating to the 1992 year. This ruling was applied to years 1993 and 1994. For the 1995 to 2002 years, the Company and the IRS negotiated a settlement that determined that a portion of the foreign earnings had been repatriated. This settlement was approved in December 2005, resulting in a tax refund of \$6 million, which was recorded as an increase to deferred tax liabilities, and an interest refund of \$40 million, which was reflected in interest income and accounts receivable in the Company's 2005 financial statements.

On October 22, 2004, the American Jobs Creation Act (the "Act") was passed, providing for a special one-time deduction of 85% on certain foreign earnings that are repatriated to the United States provided certain criteria are

net including the implementation of a qualifying reinvestment plan. In January 2006, the Company approved a qualifying reinvestment plan and repatriated \$495 million of untaxed foreign earnings pursuant to the provisions of the Act. This repatriation resulted in a one-time tax benefit of \$72 million in the fourth quarter of 2005.

The effect of temporary differences that give rise to deferred income taxes at January 28, 2006 and January 29, 2005 was as follows:

(Millions)	2005			2004		
	Assets	Liabilities	Total	Assets	Liabilities	Total
Leases	\$ 36		\$ 36	\$ 38		\$ 38
Non-qualified retirement plan	63		63	57		57
Inventory	20	—	20	6	—	6
Property and equipment		\$4 (9)	(9)		\$4 (8)	(8)
Goodwill	—	(16)	(16)	—	(16)	(16)
Trade payables and other liabilities		(48)	(48)		(49)	(49)
Undistributed earnings of foreign affiliates	—	(1)	(1)	—	(38)	(38)
State net operating losses	52	—	52	47	—	47
Valuation allowance on State net operating losses	(51)	—	(51)	(47)	—	(47)
Other, net	—	(39)	(39)	—	(40)	(40)
Net deferred income taxes	\$130	\$4 (63)	\$185	\$40	\$4 (57)	\$55

As of January 28, 2006, the Company had available for state income tax purposes net operating loss carryforwards which expire if unused in the years 2006 through 2015. The Company has determined that it is more likely than not that substantially all of the state net operating loss carryforwards will not be realized and, accordingly, a valuation allowance has been provided for the deferred tax asset.

Income taxes payable included net current deferred tax liabilities of \$39 million at January 28, 2006 and \$74 million at January 29, 2005. Income tax payments were \$298 million in 2005, \$385 million in 2004 and \$152 million in 2003.

## 9. Long-term Debt

The Company's long-term debt balance at January 28, 2006 and January 29, 2005 was as follows:

(Millions)	2005	2004
6.125% Notes due December 2012, less unamortized discount	\$ 799	\$ 799
6.94% Debentures due March 2033, less unamortized discount	149	149
5.25% Notes due November 2014, less unamortized discount	498	498
Term loan	500	500
Credit facility due January 2010	31	—
Total debt	\$1,977	\$1,946
Current portion of long-term debt	71	—
Total long-term debt	\$1,906	\$1,946

In January 2006, Mas Industries Far East Limited, a wholly-owned subsidiary of Limited Brands Inc., entered into a \$60 million unsecured revolving credit facility. The credit facility is available for general corporate purposes, including the funding of dividends to Limited Brands Inc. The maturity date of this credit facility is January 2010. Annual fees payable under the facility are 0.05% on the outstanding principal amounts, which totaled \$38 million as of January 28, 2006. The Company will repay the drawings on the credit facility in eight equal semi-annual installments, with the first installment of \$4 million to be repaid in June 2006.

In October 2004, the Company issued \$500 million of 5.25% notes due November 2014 upon filing a shelf registration statement. The Company also borrowed \$500 million under a term loan agreement (the "Term Loan") that became effective in November 2004. The proceeds of these borrowings were used, partially, to finance the Company's \$2 billion tender offer and \$500 million special dividend during the fourth quarter of 2004.

The principal amount outstanding under the Term Loan is due in quarterly installments of \$25 million from March 2007 to December 2008 and \$25 million from March 2009 to December 2009. On March 22, 2006, the Company amended the Term Loan Agreement (see Note 15).

In conjunction with the completion of the \$2 billion tender offer, the Company replaced its existing unsecured revolving credit facility with a new \$1 billion unsecured revolving credit facility (the "Facility"). The Facility is available to support the Company's commercial paper and letter of credit programs, which may be used from time to time to fund working capital and other general corporate requirements. Borrowings outstanding under the Facility, if any, are due in November 2009. There were no borrowings outstanding as of January 28, 2006 and January 29, 2005. Fees payable under the Facility are based on the Company's long-term credit ratings and are currently 0.5% of the committed amount per year. On March 22, 2006, the Company amended the Facility Agreement (see Note 15).

The Facility and the Term Loan have several interest rate options, which are based in part on the Company's long-term credit ratings. The interest rate on the Term Loan was 5.30% on January 28, 2006. New agreements may require the Company to maintain certain specified fixed charge and debt to earnings ratios and may include covenants, such as liens on property or assets. The Company was in compliance with all covenant requirements as of January 28, 2006.

Principal payments due on long-term debt in the next five fiscal years and the remaining years hereafter are as follows:

(Millions)	
2006	\$ 7
2007	108
2008	118
2009	107
2010	
Thereafter	\$ 46

Cash paid for interest was \$99 million in 2005, \$46 million in 2004 and \$59 million in 2003.

## 10. Shareholders' Equity

Under the authority of the Company's Board of Directors, the Company repurchased shares of its common stock under the following repurchase programs during the fiscal years ending January 28, 2006, January 29, 2005 and January 31, 2004:

Program Authorization Date	Amount Authorized (in millions)	Shares Repurchased (thousands)			Average Stock Price of Shares Repurchased
		2005	2004	2003	
November 2005 a) . . . . .	\$ 200	6,971			\$22.67
August 2005 . . . . .	\$ 100	1,621			\$20.40
May 2005 . . . . .	\$ 100	4,476			\$22.54
February 2005 . . . . .	\$ 100	4,446			\$23.66
October 2004 b) . . . . .	\$2,000		66,965		\$29.00
August 2004 . . . . .	\$ 750		6,906		\$7.16
May 2004 . . . . .	\$ 100		\$,142		\$ 9.45
February 2004 c) . . . . .	\$ 500		51,675		\$ 9.75
January 2003 . . . . .	\$ 150			9,941	\$ 5.02
Total Shares Repurchased		7,134	175,416	9,941	

- a) The purchase program authorized in November 2005 included \$67.1 million remaining under the August 2005 program. This program was completed in February 2006.
- b) The purchase program authorized in October 2004 superseded the August 2004 program. Repurchases were made under a modified Dutch Auction tender offer. Upon completion of this tender offer, the Board of Directors declared a \$500 million special dividend of \$1.33 per share, which was paid in January 2005.
- c) Repurchases authorized in February 2004 were made under a modified Dutch Auction tender offer.

\$ 6 million of share repurchases under the November 2005 program were reflected in accounts payable at January 28, 2006, based on their settlement in February 2006.

## 11. Stock-based Compensation

Under the Company's stock plans, approximately 100 million options and restricted shares have been authorized to be granted to associates. Approximately 74 million options and restricted shares were available for grant at January 28, 2006. Awards have a maximum term of 10 years and generally vest over periods from four to six years.

Prior to the acquisition of the IBI minority interest in 2002, associates were granted restricted shares and options under separate Limited Brands and IBI stock plans. As a result of the recombination, the IBI stock plan was amended to reflect the conversion of IBI stock options and restricted stock to Limited Brands stock awards with substantially similar terms. For the years ended January 28, 2006, January 29, 2005 and January 31, 2004, the Company recognized \$4 million, \$2 million and \$1.1 million, respectively, of pretax non-cash compensation expense related to these awarded awards.

In connection with the \$500 million special dividend in 2004, the Company adjusted both the exercise price and the number of stock-based awards outstanding as of the record date of the special dividend. As a result of this adjustment, both the aggregate intrinsic value and the ratio of the exercise price to the market price were approximately equal immediately before and after the dividend record date. As a result, no compensation expense was recognized for this adjustment.

The Company's stock options outstanding at January 28, 2006 were as follows:

Thousands except per share amounts					
Options Outstanding				Options Exercisable	
Range of Exercise Prices	Number Outstanding	Weighted Average Remaining Contractual Life	Weighted Average Exercise Price	Number Exercisable	Weighted Average Exercise Price
\$ 5 – \$10	4,700	1.5	\$ 9.57	4,700	\$ 9.56
\$11 – \$15	9,610	5.1	\$13.04	6,429	\$13.37
\$16 – \$20	13,487	6.3	\$17.72	7,429	\$17.61
\$21 – \$26	6,636	8.9	\$23.86	579	\$22.91
\$ 5 – \$26	34,521	5.8	\$16.47	19,037	\$14.25

The Company's stock option activity for 2005, 2004 and 2003 was as follows:

Stock Option Activity (Thousands except per share amounts)	Number of Shares	Weighted Average Option Price Per Share
<b>2003</b>		
Outstanding at beginning of year	43,464	\$14.31
Granted	2,577	17.96
Exercised	(4,700)	9.77
Canceled	(2,500)	17.1
Outstanding at end of year	41,841	\$14.40
Options exercisable at end of year	24,777	\$14.40
<b>2004</b>		
Outstanding at beginning of year	43,464	\$14.40
Canceled	6,470	19.7
Exercised	8,946	13.41
Canceled	(2,422)	16.05
Adjustment for special dividend	1,822	N/A
Outstanding at end of year	35,884	\$14.76
Options exercisable at end of year	5,796	\$15.58
<b>2005</b>		
Outstanding at beginning of year	45,864	\$14.76
Granted	6,725	23.89
Exercised	(4,667)	13.85
Canceled	(7,631)	17.59
Outstanding at end of year	41,551	\$16.47
Options exercisable at end of year	2,133	\$14.25

Approximately 517,000, 595,000 and 869,000 restricted Limited Brands shares were granted in 2005, 2004 and 2003 with market values at date of grant of \$77 million in 2005, 2004 and 2003. Restricted shares generally vest over a period of three to six years. As at January 28, 2006, 6 million restricted shares were unvested.

## 12. Retirement Benefits

The Company sponsors a defined contribution retirement plan and a supplemental retirement plan.

Participation in the defined contribution plan is available to associates who have completed 1,000 or more hours of service with the Company during a 12-month period and who have attained the age of 21. This plan is a qualified plan and the Company contributes amounts based on a percentage of the associate's eligible annual compensation. The Company's contribution vests based on the associate's years of service. The plan also permits associates to contribute amounts to individual accounts up to the maximum amount allowable under the Internal Revenue Code. The Company matches associate contributions based on a predetermined formula and his match immediately exceeds total expense recognized related to this plan was \$44 million in 2005, \$44 million in 2004 and \$42 million in 2003.

Participation in the supplemental retirement plan is subject to service, job level and compensation requirements. This plan is an unfunded non-qualified plan and the Company contributes amounts based on a percentage of the associate's eligible compensation. This plan permits highly compensated associates to defer a portion of their salaries beyond the Internal Revenue Code limits for the defined contribution plan. The Company matches associate contributions according to a predetermined formula up to a maximum amount. Associates may elect to defer additional amounts beyond their salaries subject to limitations. Associate accounts are credited with interest using rates determined annually based on an evaluation of the 10 year and 30 year borrowing rates available to the Company. Associate contributions and the related interest are immediately Company contributions and the related interest are subject to vesting based on the associate's years of service. Unmatched associate contributions and the related interest can be distributed from the plan at any time through an in-service withdrawal. The unfunded vested balance can only be paid upon termination of employment or after a lump sum or 12 equal annual installments over a 10 year period. The annual accruals of this plan and the Company's year-end liability, which is included in other long-term liabilities, was as follows:

(Millions)	2005	2004
Balance at beginning of year	\$145	\$ 87
Contributions		
Associate	4	16
Company	2	17
Interest	0	8
Disbursements	71	51
Forfeitures	10	17
Balance at end of year	\$163	\$145

Total expense recognized related to this plan was \$20 million in 2005, \$23 million in 2004 and \$22 million in 2003.

### 13. Fair Value of Financial Instruments and Concentration of Credit Risk

#### Fair Value of Financial Instruments

The carrying value of cash equivalents, accounts receivable, accounts payable and accrued expenses approximates fair value because of their short maturities. The fair value of long-term debt is estimated based on the quoted market prices for the same or similar issues. The estimated fair amount of the company's long-term debt as January 28, 2006 and January 29, 2005 was \$1.6 billion and \$1.7 billion, compared to the carrying value of \$1.7 billion and \$1.6 billion, respectively.

#### Concentration of Credit Risk

The Company maintains cash and equivalents with various major financial institutions, as well as commercial, commercial paper. The Company monitors the relative credit standing of these financial institutions and other entities and limits the amount of credit exposure with any one entity. The Company also monitors the creditworthiness of the entities to which it grants credit terms in the normal course of business.

#### 14. Segment Information

The Company has three reportable segments: Victoria's Secret, Bath & Body Works and Apparel.

The Victoria's Secret segment derives its revenues from sales of women's intimate and other apparel, personal care and beauty products and accessories marketed primarily under the Victoria's Secret brand name. Victoria's Secret merchandise is sold through retail stores and direct response channels (catalogue and e-commerce). The Bath & Body Works segment derives its revenue from the sale of personal care, beauty and home fragrance products marketed under the Bath & Body Works, C.O. Bigelow and White Barn Ceramic Company brand names as well as from sales of third-party brands sold through retail stores as well as its new e-commerce e-commerce site [bathandbodyworks.com](http://bathandbodyworks.com). The Apparel segment derives its revenues from sales of women's and men's apparel through Express and Limited Stores.

The Company's segment information as of and for the years ended January 28, 2006, January 29, 2005 and January 31, 2004 was as follows:

(Millions)	Victoria's Secret	Bath & Body Works	Apparel	Other	Total
<b>2005</b>					
Net sales	\$4,448	\$2,285	\$2,119	\$ 627	\$9,692
Depreciation and amortization	94	69	64	82	299
Operating income (loss)	386	403	(92)	(211)	986
Total assets	2,173	1,438	616	2,119	6,346
Capital expenditures	164	47	86	183	480
<b>2004</b>					
Net sales	\$4,232	\$2,169	\$2,490	\$ 577	\$9,468
Depreciation and amortization	112	73	30	78	313
Operating income (loss)	799	400	6	188	1,277
Total assets	2,140	1,487	606	1,790	6,069
Capital expenditures	192	64	125	50	411
<b>2003</b>					
Net sales	\$3,817	\$1,934	\$2,697	\$ 406	\$8,934
Depreciation and amortization	75	68	68	77	288
Operating income (loss)	711	354	91	134	1,254
Total assets	2,038	1,404	665	3,793	7,880
Capital expenditures	108	30	102	53	293

a) includes Corporate, including non-core real estate, equity investments and other administrative functions such as treasury and audit. Macy's (an apparel retailer) which is a significant supplier of merchandise for Victoria's Secret, Express and Limited Stores) and Henri Bendel.

#### 15. Subsequent Events

On March 22, 2006, the Company amended the Facility and Term Loan agreements. As a result of the amendments, the term of the Facility and Term Loan was extended to March 31, 2011, the repayment schedule of the Term Loan was changed to a single repayment in March 2011 and the fees payable under the Facility, which are based on the Company's long-term credit ratings, were reduced from 5.5% to 4.125% of the committed amount per year.

In February 2006, the Board of Directors of the Company authorized the repurchase of an additional \$400 million of the Company's common stock. Through March 17, 2006, 0.5 million shares have been repurchased under this program at \$29 million at an average price of \$2.63 per share, which includes broker commissions.

## 16. Quarterly Financial Data (Unaudited)

During the fourth quarter of 2005, the Company elected to change its inventory valuation method from the retail inventory method to the weighted-average cost method, retroactive to the beginning of 2005. See Note 2). The following tables summarize quarterly unaudited financial data for 2005 and 2004. The 2005 information has been restated to reflect the impact of this change in accounting principle, retroactive to the beginning fiscal 2005. In the opinion of management, this summarized quarterly financial data reflects all adjustments, which are of a normal recurring nature necessary for a fair statement of the results for the interim periods.

(All amounts except per share amounts)  
2005 Quarters

	First		Second		Third		Fourth	
	As Previously Reported		As Previously Reported		As Previously Reported		As Previously Reported	
	Restated		Restated		Restated		Restated	
	Retail Method	FIFO Method	Retail Method	FIFO Method	Retail Method	FIFO Method	Retail Method	FIFO Method
Net sales	\$ 975	\$ 975	\$ 928	\$ 928	\$ 862	\$ 862	\$ 542	\$ 542
Gross profit	614	685	795	745	589	606	1,487	1,444
Operating income	48	119	204	153	3	20	737	694
Income (loss) before cumulative effect of accounting changes	21	66	13	82	(12)	(1)	546	514
Cumulative effect of accounting change, net of tax	—	17	—	—	—	—	—	—
Net income (loss)	21	83	13	82	(12)	(1)	546	514
Net income (loss) per basic share (a)								
Income (loss) before cumulative effect of change in accounting principle	\$ 0.06	\$ 0.16	\$ 0.28	\$ 0.70	\$ (0.03)	\$ (0.00)	\$ 1.37	\$ 1.40
Cumulative effect of change in accounting principle		0.04						
Net income (loss) per basic share	0.06	0.20	0.28	0.70	(0.03)	0.00	1.37	1.40
Net income (loss) per diluted share (a)								
Income (loss) before cumulative effect of change in accounting principle	\$ 0.06	\$ 0.16	\$ 0.27	\$ 0.70	\$ 0.01	\$ 0.00	\$ 1.34	\$ 1.28
Cumulative effect of change in accounting principle		0.04						
Net income (loss) per diluted share	0.06	0.20	0.27	0.70	(0.03)	0.00	1.34	1.28

a) Due to changes in stock prices during the year and timing of issuances and repurchases of shares, the cumulative total of quarterly net income (loss) per share amounts may not equal the net income per share for the year.

b) Includes the effect of the following items:

\$11 million related to recognition of income related to unredemmed gift cards

A favorable one-time tax benefit of \$77 million related to the repatriation of foreign earnings under the provisions of the American Jobs Creation Act and pretax interest income of \$40 million related to equity settlement

The following quarterly financial data for fiscal 2006 has not been restated to reflect the impact of the change from the LIFO method to the cost method. The pro forma impact of this change on the quarterly financial data for 2006 is not determinable because the information necessary to determine the cost of inventories using the weighted-average cost method is no longer available.

<u>2006 Quarters</u>	<u>First (a)</u>	<u>Second (c)</u>	<u>Third (d)</u>	<u>Fourth (e)</u>
Net sales	\$1,978	\$2,211	\$1,891	\$3,328
Gross profit	677	801	615	1,344
Net income	97	148	78	382
Net income per share:				
Basic	\$ 0.19	\$ 0.31	\$ 0.17	\$ 0.89
Diluted	0.19	0.31	0.16	0.87

- (a) Due to changes in stock prices during the year and timing of issuances and repurchases of shares, the cumulative total of quarterly net income per share amounts may not equal the net income per share for the year.
- (b) Includes a \$45 million pretax non-operating gain resulting from the early collection of a long-term note receivable and the sale of New York & Company warrants held by the Company.
- (c) Includes an \$18 million pretax non-operating gain resulting from the sale of the Company's remaining ownership interest in Galyan's.
- (d) Includes a \$45 million pretax non-operating gain resulting from the initial public offering of New York & Company.
- (e) Includes a \$61 million pretax non-cash charge to correct the Company's accounting for straight-line rent and the depreciation and amortization of leasehold improvements and certain intangible allowances.

## ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING, AND FINANCIAL DISCLOSURE.

Information regarding changes in accountants is set forth under the caption "INDEPENDENT REGISTERED PUBLIC ACCOUNTANTS" in the Company's proxy statement to be filed on or about April 14, 2006 in the Annual Meeting of Shareholders to be held May 2, 2006 (the "Proxy Statement") and is incorporated herein by reference.

There were no disagreements with accountants on accounting and financial disclosure.

## ITEM 9A. CONTROLS AND PROCEDURES.

**Evaluation of disclosure controls and procedures.** The Company's Chief Executive Officer and Chief Financial Officer, after examining the effectiveness of the Company's disclosure controls and procedures as required in Securities Exchange Act of 1934 Rules 13a-15(c) and 15d-15(c) as of the end of the period covered by this report (the "Evaluation Date"), have concluded that as of the Evaluation Date, the Company's disclosure controls and procedures were adequate and effective and designed to ensure that material information relating to the Company and its consolidated subsidiaries would be made known to them by others within those entities.

**Management's Report on Internal Control Over Financial Reporting.** Management's Report on Internal Control Over Financial Reporting as of January 28, 2006 and the related Report of Independent Registered Public Accounting Firm on Internal Control Over Financial Reporting are set forth in Item 8, Financial Statements and Supplementary Data.

**Change in internal control over financial reporting.** In August 2006, Victoria's Secret Stores and the majority of the Company's corporate functions implemented a new general ledger system as the first phase of an enterprise-wide systems implementation. Additionally, the Company is in the process of migrating all accounting transaction processing functions to a shared service organization. The Company believes that the system and

process changes will enhance internal control over financial reporting. There were no other changes in the Company's internal control over financial reporting that occurred in the last fiscal quarter that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

**ITEM 9B. OTHER INFORMATION.**

Not applicable.

## PART III

### ITEM 10. DIRECTORS AND EXECUTIVE OFFICERS OF THE REGISTRANT

Information regarding directors of the Company is set forth under the captions: "ELECTION OF DIRECTORS—Nominees and Directors," "Director Independence," "Information concerning the Board of Directors," "Committees of the Board of Directors," "Communications with the Board," "Attendance at Annual Meetings," "Code of Ethics," "Copies of the Company's code of ethics corporate governance principles and committee charters," and "Security ownership of directors and management." In the Proxy Statement and is incorporated herein by reference. Information regarding compliance with Section 303a of the Securities Exchange Act of 1934 as amended, is set forth under the caption: "EXECUTIVE COMPENSATION." Section 303a(b) beneficial ownership reporting compliance in the Proxy Statement and is incorporated herein by reference. Information regarding executive officers is set forth herein under the caption: "SUPPLEMENTAL LIST OF EXECUTIVE OFFICERS OF THE REGISTRANT" in Part I.

### ITEM 11. EXECUTIVE COMPENSATION

Information regarding executive compensation is set forth under the caption: "EXECUTIVE COMPENSATION" in the Proxy Statement and is incorporated herein by reference. Such incorporation by reference shall not be deemed to specifically incorporate by reference the information referred to in item 407(a)(2) of Regulation S-K.

### ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND RELATED STOCKHOLDER MATTERS

Information regarding the security ownership of certain beneficial owners and management is set forth under the captions: "ELECTION OF DIRECTORS—Security ownership of director and management" in the Proxy Statement and "SHARE OWNERSHIP OF PRINCIPAL STOCKHOLDERS" in the Proxy Statement and is incorporated herein by reference.

Information regarding equity compensation plans approved and not approved by security holders is set forth under the captions: "EXECUTIVE COMPENSATION—Stock options," "Table of Equity Compensation Plan Information" in the Proxy Statement and is incorporated herein by reference.

### ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

Information regarding certain relationships and related transactions is set forth under the caption: "ELECTION OF DIRECTORS—Nominees and directors," and "Certain relationships and related transactions" in the Proxy Statement and is incorporated herein by reference.

### ITEM 14. PRINCIPAL ACCOUNTING FEES AND SERVICES

Information regarding principal accounting fees and services is set forth under the captions: "INDEPENDENT REGISTERED PUBLIC ACCOUNTANTS—Audit fees," "Audit related fees," "Tax fees," "All other fees," and "Pre-approval policies and procedures" in the Proxy Statement and is incorporated herein by reference.

## PART IV
